UNION REPUBLICAN COUNTY TICKET.

ELECTION ON TUESDAY, OCTOBER 8.

SENATE—RUSSELL ERRETT.
ASSEMBLY—AUGUSTUS BECKERT, GEORGE WILSON, W. R. FORD, GEORGE R. RIDDLE, ALEXANDER MILLAR, DAVID L. SMITH.
PROTHONOTARY—JACOB H. WALTER.
TREASURER—MAJ. JOSEPH F. DENNISTON.
COMMISSIONER—ARCHIBALD PILLOW.
CORONER—WILLIAM CLAWSON.
JURY COMMISSIONER—CHARLES A. PUGH.
DIRECTOR OF POOR—ROBERT H. DAVIS.

A BOSTON letter to the New York *Commercial* expresses a doubt as to the result of the election in Massachusetts. It grows principally out of the question of prohibition. Butler's views on the financial problem have not improved the prospect.

THE London *Court Journal* advances the theory that women may vote under the new reform act. It seems that that the act of 1850, for shortening the language used in acts of Parliament, provides that in all acts words importing the masculine gender shall be held to include females, unless the contrary is expressly provided. Now, the reform act does not express the contrary; therefore, women can vote. The present is evidently the time for the women of England to rise in their might and assert their privileges.

THE Cincinnati *Volksblatt* calls attention to the fact that the Constitution of the United States does not contain the word *white*, and makes no distinction on account of color or race. The great patriots who established the Republic and our Constitution were not possessed of such prejudices. It is, says the *Volksblatt*, an historical fact that George Washington, Thomas Jefferson, Monroe and Madison, and even that beau-ideal of the Democrats, General Jackson, went to the polls with negroes to deposit their ballots in the same box.

THE Norfolk *Day Book* reports that there are a dozen negroes in that city who are now in the process of turning white. These are in different stages of progress. One negro's body is all white, while his face is black; another's face and hands have turned white, while his body remains black; still another is piebald; and in another the change begins to appear by a white spot behind one of her ears. The process of turning is said to be very slow, in some cases commencing in childhood and continuing to mature life and beyond.

As an instance of the friendship of the late Sir Frederick Bruce toward the United States, it is related that in the course of the late civil war, it was through his instrumentality that some war steamers which had arrived out in China, ostensibly for the Government of that country, were prevented from falling into the hands of the Confederate agents, Sir Frederick on his own responsibility causing those steamers to be purchased. He said he was determined that the powerful commerce of the United States should not be preyed upon on those shores of the Pacific.

ONE of the topics of discussion at the late meeting of the British Association for the Advancement of Science was the discovery of a split marrow-bone in a cave in Cornwall, among bones of extinct British quadrupeds. The marrow-bone has been a bone of contention among philosophers—a bone to pick. Was it split by a man to get out the marrow, or by a beast? One philosopher took several hundred marrow-bones to the beasts of the Zoological Gardens, in London, and not one of them was split in this fashion. The inference is irresistible that this bone must have been split by a pre-historic man, who lived in England contemporary with the elephants and hyenas.

THE New York correspondent of a western paper tells this yarn about an incident in Mrs. Lander's performance of Elizabeth: The audience had been in the habit of demanding a repetition of the tableau at the close of the drama; but on the night in question it was supposed the house had emptied itself without the encore. It seems it had not, however, and the curtain rose suddenly, discovering the Queen of England, restored to perfect health, sitting up on her cushions and talking glibly with Essex, who had survived his decapitation and was standing there very complacently with a cigar in his mouth and a cotton umbrella under his arm. "Burleigh," the venerable Prime Minister, had removed his wig and was drinking a glass of lager beer, while "Lady Howard" was waltzing with "Sir Francis Drake," to the regular puffs of her (historic) husband's cigar.

Lincoln at Gettysburg.

On the 19th of November, 1863, Abraham Lincoln delivered his dedicatory address on the occasion of consecrating the National Cemetery at Gettysburg. The immortal words which he then uttered cannot be too often impressed upon the American people, and their republication to-day will associate them with the similar ceremony enacted over the dust of the brave men who fell upon the equally glorious field of Antietam:

"Fourscore and seven years ago our fathers brought forth upon this continent a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether the nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battle-field of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

"But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our power to add or detract. The world will little note, nor long remember what we say here, but it never could be forgot what they did here. It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of their devotion—that we here highly resolve that the dead shall not have died in vain, that the nation shall, under God, have a new birth of freedom, and that the government of the people, by the people, and for the people, shall not perish from the earth."

RAILWAY MATTERS.

No State in the Union is paying more attention to its internal development than Ohio, and her citizens can do it, for they have a Free Railroad Law. There is not a county of importance in the State, but what is penetrated by a railway, and at the rate at which new roads are projected it will not be many years until every town in the State will have railway facilities. A meeting was held last week in Gallipolis, to consult in relation to a proposition from the Marietta & Cincinnati Railroad, for the construction of a railroad from Hamden, to strike the Ohio river at the mouth of Campaign creek, coming down the valley of that creek, and running from its mouth down the Ohio to a point opposite Point Pleasant, and thence to Gallipolis; also a branch up the Ohio, from the mouth of Campaign to Pomeroy, making in all a line of 50 miles. The Marietta & Cincinnati Railroad Company agree to build the road, provided Gallia and Meigs counties will raise $700,000. The movement, it is said, promises to be successful.

NEW ROUTE TO THE MISSISSIPPI.

Arrangements have been completed for the construction of the Indianapolis, Crawfordsville and Danville Railroad to the Mississippi river. The engineers are now engaged on the survey, and the workmen are arriving with their implements to commence the work. The cost of construction it is reported, will be remarkably cheap, as the route is very favorable. The road will pass through a rich section of country in Indiana and Illinois, which will permit a large local business, and making, as it will, a direct east and west, through route from the Mississippi river to the Atlantic coast, must command a large through travel and freight business.

RAILROAD ENTERPRISE IN MINNESOTA.

St. Paul, Minnesota, is soon to be connected by an unbroken line of railway with the Lake cities and the Eastern seaboard, by an extension of the Milwaukee and Prairie du Chien Railway from McGregor, opposite Prairie du Chien, on the Iowa side of the river, West to a point intersecting the Minnesota Central Railroad, which runs in a nearly North and South line from St. Paul. The Milwaukee and St. Paul Railway will also soon complete a similar extension West of La Crosse, intersecting with the same road, which runs through the best and most productive wheat region in the country. These extensions will not only quicken the development of Minnesota, but will lessen the cost of her agricultural productions to the Eastern consumer.

THE NEW LISBON RAILWAY.

The statement that the New Lisbon, O., Railway had ceased running is not true. The road is all right, and trains are running regularly. This is an important road, and there is no probability of its ceasing to be operated.

WARREN AND DUNKIRK RAILWAY.

Work on the Warren and Dunkirk Railroad will commence immediately. The contractors are to have fifty thousand dollars per mile, and agree to have the road in running order by July next, if the people of Warren will assist in the enterprise. If they don't they will stand in their own light.

Registration in Alabama.

Attempt to Open the Lists by Amnestied Rebels.

Correspondents Forbidden the Treasury Department.

Why General Hancock Does Not Proceed to His Command.

Havoc Among Army Officers by Yellow Fever.

Special Dispatch to the Commercial.

WASHINGTON, September 27, 1867.

Amnestied Rebels Trying to Register.

Official information was received here to-day of an effort which had been made in General Pope's district to throw open the registration lists by virtue of the proclamation of amnesty recently issued. It appears that S. F. Rice, once a member of the Alabama Legislature, has applied to the Montgomery Board of Registration, which is revising the lists in that city, and asked to be registered, at the same time producing the oath taken by him under the proclamation of September 10th. Under General Pope's instructions the board refused to register his name. Mr. Rice at once proceeded before the United States Commissioner, and made affidavit of the fact with a view of testing the case in the United States Courts.

Newspaper Financial Canards.

Secretary McCulloch this morning issued a circular forbidding all employees of the Treasury Department to furnish any information to persons connected with the public press, unless by special permission from the head of the bureau. He also directs that no newspaper man be allowed in any room of the Department unless on business with the Department. He further states that any violation of this rule will subject such employee to immediate dismissal. The Secretary informed the correspondents that he was obliged to issue this order, owing to the many misstatements intentional and unintentional put out by minor officials of the department, and to prevent, if possible, the deliberate manufacture of financial paragraphs with a view to injure the credit of the Government. He animadverted severely on one appearing in the Washington correspondence of the Boston *Post*, as copied into the New York papers of yesterday, relative to the sale of twenty millions of gold and the National Bank reserves, and authorized your correspondent to denounce it as a pure fabrication. This paragraph, in the main, prompted the official order of to-day. The Washington journals are very indignant over the new order.

Cause of Gen. Hancock's Delay.

There has been considerable misapprehension relative to the delay of General Hancock in proceeding to the command of the Fifth Military District. It is learned officially that General Grant addressed General Hancock a letter stating that the yellow fever continued unabated at New Orleans, rendering it dangerous for any one from the North to go there, and suggesting that while it would be well for him to delay assuming command, he could not do so within the general order allowing officers ordered to Louisiana and Texas to the 15th of October before reporting for duty, because the President had ordered him to go at once. This letter was laid before the President and he at once wrote on it: "General Hancock need not assume command of the Fifth District till October 15th, or even thereafter, unless he deems it proper."

Cabinet Meeting.

The Cabinet assembled at noon to-day, and remained in session about two hours. Gen. Grant was present. All the members were present except Secretary Browning. He was represented, however, by Assistant Secretary Otto.

The Venezuelan Minister.

Hon. Thomas N. Stillwell, of Indiana, the newly appointed minister to Venezuela, who has been in town for several days, left for home this evening. He will not assume the duties of his office for two or three months.

Victims of Yellow Fever.

A private letter from the Department Quartermaster at Galveston states that Col. O'Connell, Captain S. Warren, Lieut. Lewis Lambert and nearly the whole command of the 17th Infantry, have died at that post of yellow fever. Col. O'Connell's wife has also fallen a victim.

Not True.

It is learned authoritatively that the statement that Louis V. Bogy, lately Commissioner of Indian Affairs, was to be appointed Secretary of the Interior, Vice Browning, who intended to resign, has not a shadow of foundation.

Governor Fletcher

Of Missouri, arrived to-day, called on Gen Grant, and has been visiting the National Cemeteries.

WASHINGTON, September 27, 1867.

TREASURY ORDER.

Secretary McCulloch has promulgated an order forbidding clerks of the Treasury Department furnishing information to persons connected with the public press, unless by permission of the Secretary, his Assistants or Chiefs of Bureau. A violation of this rule subjects the offender to an dishonorable discharge.

DEATH.

James Ferguson, Assistant Astronomer of the United States Naval Observatory, died to-day.

A VICTIM OF YELLOW FEVER.

A dispatch from General Mower, at New Orleans, announces the death from yellow fever, yesterday, of Lieut. Wing, Fourth Cavalry. The other officers are doing well.

CUSTOMS.

The receipts from customs for the week ending on the 21st were $4,108,370.

CONDITION OF THE TREASURY.

The Treasury is not in the straightened condition represented in some quarters, and therefore is not obliged to resort to large sales of gold to meet its immediate necessities.

SHERIDAN'S PROGRAMME TO BE CARRIED OUT.

The New Orleans *Times*, received to-night, says it has excellent reasons for believing General Mower will not interfere with the programme laid out by Gen. Sheridan.

FROM NEW YORK.

NEW YORK, September 27, 1867.

BUTCHERS ARRESTED.

The police yesterday arrested thirty butchers for slaughtering animals between Forty-Second and Forty-Eighth streets, near North river, without permits from the Board of Health.

SIGEL SERENADED.

General Sigel was serenaded at Morrisana last night, where he has recently taken up his residence.

BISHOP WOOD,

Just returned from Europe, was warmly received by the Roman Catholics of Philadelphia, yesterday.

WM. A. HOLLAND,

Late Surgeon General of the Army, has been appointed a Professor in Bellevue Hospital.

RECEPTION OF SHERIDAN.

A meeting was held at the armory of the First Regiment last evening, for the purpose of making arrangements for the reception of General Sheridan. Permission was granted to the colored leagues and organizations to turn out. Rush C. Hawkins was made grand marshal.

THE CHOLERA.

The cholera is still virulent at quarantine. Five deaths have occurred and fifteen are still in hospital, some of whom will not recover.

THE TOBACCO MEN WILL SUSPEND.

It is reported that the tobacco merchants have resolved to suspend business until the Secretary of the Treasury so orders the regulations that they will not, as alleged destroy their trade.

BONDED WAREHOUSES.

The Secretary of the Treasury has telegraphed Collector Smook that such portions of the new regulations as require the immediate rebonding of bonded warehouses are suspended for the present.

BLACK TYPHUS

At a meeting of the Board of Health yesterday, Dr. Harris stated that the disease prevalent among the patients in the hospital ship at lower quarantine was almost unknown to him. It looked like cholera, but on investigation proved something else. He believed it slowly infectious, and it bore a close resemblance to the black typhus of Ireland.

PERSONAL.

Senator Morton, of Indiana, is in New York.

Governor Fletcher, of Missouri, addressed a Republican meeting at Paterson, New Jersey, on Tuesday evening.

PHILADELPHIA.

Arrests of Counterfeiters---Big Haul of Bogus Notes.

PHILADELPHIA, September 26.—Dr. M. V. Garman, Nat. Kenney and Miss Caroline Heron were arrested last night on a charge of manufacturing counterfeit bank notes. The officers also seized $22,500 in finished notes, and $100,000 in unfinished notes. They also captured the plates for printing notes on the Fourth National Bank of New York City, and fifty-cent fractional currency, together with presses, ink, etc. Since the arrest of Garman it is ascertained he had a contract to supply notes on the First National Bank of our city, to be executed next week. Garman is supposed to be the man who first issued fractional currency notes. The parties will have a hearing before the United States Commissioner immediately.

Gen. Sheridan held a levee this noon at the Union League House, and received a thousand members of the League and friends. A large crowd witnessed his entrance to the hall, and the cheering was enthusiastic. Among the visitors were the orphan boys of deceased soldiers from Lincoln Institute. Their commander made a neat speech welcoming Sheridan to the city. He replied, thanking them for the pleasure of seeing them. The boys gave him three cheers.

A committee of Councils waited on Gen. Hancock, tendering him the hospitalities of the city. He was also invited to a banquet at the League House, but he declined both.

At an immense Republican soldiers' meeting to-night, resolutions favoring the impeachment of President Johnson were adopted. After adjournment a procession was formed and marched to Union League Hall, where Generals Sheridan and Sickles were received with prolonged cheers. General Wagner addressed them in terms of welcome, saying the Army of the Republic would follow them in their efforts to reconstruct the South on the basis of the will of the loyal men expressed in the acts of Congress. In response to a call General Sickles made a speech, thanking his comrades for their welcome, and strongly urging the carrying out of the reconstruction measures of Congress, closing with an appeal to those soldiers who are spared not to leave undone the work their dead brothers did not live to help them to. General Sheridan made a short speech of thanks.

Seizure by Revenue Officers.

CHICAGO, September 27.—Inspector Barrett to-day seized eighty-five barrels of highwines, believed to be stamped with a forged inspectors' brand. The revenue officers have for some days suspected an extensive scheme to defraud the Government. Other seizures are looked for.

Gen. Hancock at Norristown.

NORRISTOWN, September 27.—General Hancock visited his mother and birth place to-day, and was cordially received by the citizens. In the evening he was serenaded by the Grand Army of the Republic. Colonel Brientbach, of his old corps, made a speech, to which the General responded.

MANSFIELD, OHIO.

Grand Republican Meetings in Mansfield and Bucyrus---Speeches by General Schenck, Hon. A. F. Perry, General Hayes and others.

Special Dispatch to the Commercial.

MANSFIELD, O., September 27, 1867.

The Republican Union mass meeting to-day was well attended. It was addressed by Hon. A. F. Perry, of Cincinnati, and Gen. R. C. Schenck. Mr. Perry discussed briefly the Constitutional Amendment, and devoted about an hour to the question of finance and taxation. It was a clear and concise argument, crowded into the smallest possible space and complete in its deductions. Our citizens have never heard these perplexing questions so ably handled before. No mere telegraph abstract could do justice to this masterly effort. One of the many good points was the showing up of the Democratic proposition to pay off the National debt in greenbacks, which the speaker likened to a man paying off a note held against him by giving another note without interest.

Gen. Schenck followed in a two hours' speech with his usual ability and vigor. He avowed himself in favor of immediate impeachment of the President upon the reassembling of Congress. He also declared if the Maryland levies attempted to interfere with Congress, as he said was intimated in Washington, they would do to prevent action in regard to the President, the State of South Carolina, after Sherman's march through her territory, would be as a garden of paradise, in comparison with Maryland when an outraged people had done with her. He was greatly cheered throughout.

A number of our leading Democrats were present and listened to the speech.

Hon C. S. Hamilton is addressing a large and enthusiastic meeting in Miller's Hall to-night.

A large and enthusiastic Union meeting was held at Bucyrus to-day—the largest held there during the present campaign. Gen. Hayes addressed the meeting, thoroughly reviewing all the points in discussion, side issues, bygones and all. The *Republican* claims the number in attendance as considerably larger than at the Thurman meeting last week. Gen. R. P. Buckland is speaking this evening.

ENON VALLEY, PA.

Arrest and Commitment for Trial of an Alleged Horse Thief.

Special Dispatch to the Commercial.

ENON VALLEY, PA., September 27, 1868.

A man who calls himself George Hoover, from East Liberty, offered for sale at Petersburg, Ohio, this afternoon, a large gray horse, under very suspicious circumstances. He was followed to this place, arrested, and examined before Esquire McCoroan, who committed him for trial at New Castle.

D. A. R.

[Robert Philips, of Seven Mile Island, is the owner of the horse, who offered a reward of fifty dollars for the arrest of the thief and recovery of the animal. Hoover is a resident of Lafayette, Indiana.]

MEXICO.

Diaz a Candidate for Presidency--Father Fisher---Marquez Still Concealed---Princess Salm Salm in Queretaro.

NEW YORK, September 27.—Advices from the City of Mexico to September 19th, state that Vice Admiral Tegethoff had determined to return to Austria, whether he received the remains of Maximilian or not.

Porfirio Diaz has accepted the nomination for the Presidency, and his adherents were organizing for the campaign.

City of Mexico letters of September 8th, say efforts are being made by Admiral Tegethoff to secure the liberty of Father Fisher, Maximilian's confessor. The Father was authorized by Maximilian to publish all his correspondence with Napoleon and Bazaine during the intervention. He is said to have recently refused 400,000 francs, offered by a French officer, for the documents.

It is considered more than probable that Marquez is still concealed in the city.

Princess Salm-Salm is in Queretaro, where her husband is serving out his seven years sentence.

HAVANA, September 26.—Advices from the City of Mexico are to the 15th, and Vera Cruz to the 20th. The diligence from the Capital had been robbed.

Guesta Quinto Baron, the celebrated English banker, died at Tacubaya on the 9th.

The body of Maximilian had been brought to the City of Mexico. A specie conducta had left Queretaro.

The Nuevo Leon forces had triumphed, entering Monterey on the 24th ult.

The waters had overflowed a portion of the town of Accambiraro, causing some deaths and much damage.

Mr. Otterburg, late American Minister, had obtained passports for home with his family and Mr. Blake. The archives of the nation were left in charge of Consul Kreppe.

Marquez is reported seen going into Tamaulipas with a mule load of money.

The Concovictori is appointed to meet on the 22d inst.

The report at Vera Cruz that the condition on which the body of Maximilian would be delivered to Admiral Tegethoff was the return of articles stolen and carried off to Miramar, is false.

Property in Sonora worth over $200,000 has been confiscated.

CANADA.

Parliament --- Regatta --- Hamill Challenged.

OTTAWA, September 27.—It is reported that Hon. John Rose is to be the Speaker of the House of Commons, and Hon. H. J. Hilliard Cameron President of the Senate.

At the Regatta yesterday, the two-mile scull race for the championship of Canada was won by Richard Tinning, of Toronto. He has issued a challenge to Hamill or Brown for $500, single sculls, distance, place and time to be arranged.

MONTREAL, September 27.—The Executive Council held a meeting at Ottawa to-day. It is understood the chief subject to come before the House of Commons will be an indemnity bill, the colonial railway, fishery, transfer of local public works to provincial control, equalization of tariff and admission of Northwest British Columbia and Vancouver's Island to the Union.

E. L. Tenney, in the employ of George Smith, forwarder, has absconded after committing several forgeries and abstracting two thousand dollars from money letters.

The Grand Jury to-day found true bills against seven persons alleged to have been concerned in the late election disturbances.

Murderers Held for Trial.

KINGSTON, C. W., September 27.—The inquest in the Driscoll murder case closed to-day. All four of the prisoners were committed for trial. The jury complimented American officers for courtesy shown Canadian authorities, and vigilance in pursuing the prisoners, who were delivered up without the forms and delays usual in cases of extradition.

Reception of Sheridan at Newark.

NEWARK, September 27.—General Sheridan will be received with civil and military honors on his arrival here to-morrow.

LATE NEWS.

Izzy Lazarus, the noted New York pugilist, died yesterday morning.

The Treasury Department has, it is stated, received a report from J. H. Wiggins, Treasury Agent in New York City, to the effect that he has caused an attachment to be made upon the personal property of Mr. Henry Hart, of New York, to the amount of $400,000, to indemnify the United States for losses alleged to have been sustained through the frauds of himself and accomplices.

A City of Mexico special, of the 19th inst., says: Vice Admiral Tegethoff's immediate return to Austria is nearly determined on if the remains of Maximilian be not delivered soon. Gen. Diaz accepts the candidature, and his adherents are organizing. A furious electioneering campaign is now going on.

The Montgomery (Ala.) *Sentinel*, of the 23d, says that an attempt was made on the night previous, at Union Springs, Bullock county, to assassinate John C. Keffer, Chairman of the Republican State Executive Committee.

Martin B. Corman, the most extensive counterfeiter in the world, has at last been traced to Philadelphia, and arrested. All of his presses, plates, and a large amount of good and queer money, has been seized. Corman commenced his career of crime in Cincinnati five years ago as a counterfeiter of fifty cent notes, and he has driven a thriving business ever since. It is said he has circulated a quarter of a million dollars in counterfeit money.

General Sheridan made quite a lengthy speech in response to a serenade, at Germantown, Philadelphia, on Thursday night, as follows: "Gentlemen: I regret exceedingly that I am not gifted with the faculty of making speeches. I have certainly never experienced an occasion when I more highly valued a gift than I do at present. I can only say to you that I sincerely thank you for this enthusiastic welcome; that I consider myself very highly honored, and that I shall always appreciate the warm welcome you have given me here to-night. I have only to say to you, good night."

Dr. Snodgrass, one of the Committee of Arrangements of the Antietam Cemetery Dedication, publishes a statement by which it appears that the loyal Governors present at the Antietam dedication, especially Governors Fenton and Geary, were to make addresses, but Governor Swann, at the dictation of the President, called for the benediction just in time to cut them off.

THE Beardstown *Illinoisan* states the following remarkable case: "A remarkable effort of Nature to relieve the human body of an obstruction, has occurred in this vicinity, which should attract the attention of scientific men. About twelve years since Mr. James Thompson, a wealthy farmer of this county, was waylaid by ruffians, and in the encounter was stabbed in the back, under the left shoulder blade. He was treated by physicians, and in a short time the wound healed over. A few years since he began to cough, and has since that time had all the appearance of a man under the influence of consumption, to such an extent that his friends despaired of his recovery. About three weeks since, in a violent fit of coughing, he threw up a piece of the knife blade with which he was pierced, about one inch and a half in length, and about half an inch in width. It had passed, during that long interval, from his back into his stomach, through his lungs, and upward through the bronchial tube. A more wonderful freak of nature we have never read in the books. Mr. Thompson is now doing well, and bids fair to live as long as any other man.

THE STATE FAIR.

CLOSING DAY---GRAND SUCCESS.

The Noticeable Features of the Exhibitions.

The State Fair closed yesterday evening, and a majority of the thousands of strangers who visited the city on the occasion have left for their homes. There is a diversity of opinion in regard to the character of the exhibition, and some have felt disposed to censure the management for doing things which they ought not to have done, and for neglecting matters of grave importance. It is alleged by many that the exhibition did not come up to their expectations, and that it was no better than our county fairs of a few years ago. The managers were censured for permitting so many side shows to exhibit on the grounds, and allowing malt liquors, wines, etc., to be sold to all who were willing to purchase. They were also held accountable for the dust, which inflicted so much discomfort, not to say misery, upon the visitors. Had a few sprinkling carts been employed each night, or even through the day, the dust could have been kept down nicely, and the grounds made comparatively comfortable. Another great cause of complaint was the want of seats. There were no resting places to be found outside of the amphitheatre, and the seats here were only enjoyable on the payment of twenty-five cents per head. The people could not appreciate the justice of this arrangement, and very little money was realized in this way, perhaps not enough to pay the cost of the building. Many sat down in the dust rather than pay for a seat which they considered themselves entitled to without extra charge. We think the managers made a mistake in this respect, and they would have lost nothing by throwing the seats open for the accommodation of ladies and children. As to the exhibition, as a whole, it is enough to say that the managers did all in their power to make it a success. The premiums were liberal, and competition was free to all. If the entries were not so full as in days gone by, the fault was with the people, not with the managers. The fair was a *pecuniary* success, not only so far as the Society is concerned, but the community at large. Our merchants and business men generally have profited by it, and we may at least hope that the farming and manufacturing interests of the State have been fostered and encouraged thereby.

We append below a number of business notices in connection with the exhibition:

A Fair on Fifth Street.

Visitors to the great State Fair will find one of the most attractive places in the city at the Iron City Base Ball Emporium, No. 71 Fifth street, next door to the COMMERCIAL office. Messrs. Hogle & Chambers, the enterprising proprietors, are the leading dealers in this line of goods in Western Pennsylvania, and keep the largest assortment of base ball goods in the city. This is an excellent time for the lovers of base ball who live at a distance to visit this emporium and examine the stock. Goods will be shown with great pleasure. Messrs. Hogle & Chambers also keep stationery of every description, including the celebrated *Initial* 'Pen' paper and envelopes with any initial letter embossed thereon that the buyer desires; also, all the Daily and Weekly newspapers, Pictorial and Sporting periodicals; American and Foreign magazines, the latest novels, newest publications, blank books, albums, stereoscopic views and apparatus, school books, a full line of base ball goods, etc.

Norris, the Merchant Tailor,

Of No. 79 Federal street, Allegheny, is attracting great crowds of people to his place of business, and they are daily leaving their orders for those rare and elegant suits which Norris so well knows how to make. His elegant stock of Gents' and Youths' Furnishing Goods likewise come in for great praise. His stock is the largest in the city, and in the matter of low prices he will not bow to any rival concern. No trouble to show goods at this house.

The Iron City College Successful.

The result of the spirited contest between the different business Colleges has been finally decided by the Judges, in unanimously bestowing upon the Iron City College the *highest honors* over all competitors. This, together with the fact that the College has already received over one hundred *first premiums* and gold and silver medals over all competing institutions throughout the United States, most incontrovertibly establishes its claims to being the first and most successful business College in the country. Its splendid system of practical actual business training, of which it is the only representative in Western Pennsylvania, gives it, in addition to its superiority in penmanship, a great advantage over those schools which still adhere to the old worn out and rejected system of theory only. The young man who graduates at this College leaves it with such an amount of practical experience as to insure his success when he enters the business world.

California Wine Company.

This company have had on exhibition at the State Fair, samples of their celebrated wines, which we are happy to learn have received the highest premiums, and the representative of the company (Mr. W. D. Thompson) has received a large number of orders from this section of the country. The display embraced the following California wines, all guaranteed pure: Hock, Sherry, Sweet Angelica, Muscatel, Port, (dry and sweet,) especially recommended for Church purposes; Wine Bitters, an excellent tonic; Claret, Catawba, Sparkling Champagne and Hock, quarts and pints; Still Champagne, Madeira. The display was truly deserving of the highest praise and the wines justly received unqualified indorsement for their exquisite flavor, superior quality, etc. The State Fair committee have handed the following testimonial to Mr. Thompson in addition to the award of premiums:

"The committee report that they have awarded the premium to the California Wine Company, of New York, for sparkling wines, all that the rules of the Society permitted, but desire to call especial attention to the quality of the many wines exhibited by this company; they are remarkable for their strength and purity, and in flavor equal, if not exceed, the wines of Eastern countries."

Our readers will be pleased to learn that our clever and accommodating friend, Mr. A. M. Hackett, has the agency for this city, and will furnish the California wines to such as may desire them.

Homewood Lakelet Premium Ice.

Messrs. A. J. Rich & Co., proprietors of the famous Homewood Lakelet Ice, have received the highest premium at the State Fair, and we learn that many of our citizens having had a good opportunity to examine this ice at the Fair during the past week have decided to use it in future in preference to any other, and they have accordingly sent in a large number of orders to have it deposited at their residences, places of business, &c. This ice is formed upon a twelve acre lake of pure running crystal spring water. The lake is located at Homewood, on the Pennsylvania Railway, and is easy of access by that route or by the Oakland road, or Greensburg turnpike. Messrs. Rich & Co. possess admirable facilities for delivering ice by railway, water course, or road, to any point, at short notice and in any quantity, large and small. Their ice has been introduced on the Pan Handle Railroad, Pennsylvania Railroad, at the Union Depot in Pittsburgh, and it is used by the leading citizens of the two cities and the surrounding boroughs. The Homewood Lakelet Premium Ice is the purest we have yet seen. Nothing is more destructive to health than impure ice, and thousands of tons of it are taken from the rivers every season and sold to our people. But the Homewood Lakelet Premium Ice is *perfectly pure* and clear as a crystal. The address of Messrs. A. J. Rich & Co. is Wilkinsburg Postoffice, Allegheny county, Pa.

Paintings by a Lad of Fifteen.

In Artists' Hall were displayed a series of oil paintings, eleven in number, embracing two shepherd dogs, two landscapes, two fruit pieces, one dead duck, and small chickens, after Tate of New York. These paintings were the work of George H. Johnston, a delicate lad of fifteen years, a resident of Allegheny, who has displayed remarkable genius as an artist. He is a pupil of C. M. Johns, and is indebted for invaluable services in his studies to Hetzell. All of these paintings possess peculiar merit, and not one of them but would attract the attention of a connoisseur. They will be on exhibition and for sale at Messrs. Barker & Hazlegreen's, 18 Fifth street, on and after to-day.

The Premium Ram.

This is "Young Peerless"—one of the most remarkable Rams in the country, and the Premium Ram at the State Fair, having taken the first prize yesterday. He is three years old—is of the pure Spanish merino breed; sheared last twenty-three pounds to the single fleece, and is valued as one of finest stock Rams in the country. The attention of stock raisers is especially directed to this rare and splendid specimen. A few such blooded Rams would work a miracle in the improvement of stock in this country. "Young Peerless" is owned by Messrs. Miller & Templeton, of West Middletown, Washington county, Pennsylvania, and is exhibited by Mr. M. Templeton. Address as above for full information in regard to "Young Peerless." Wool growers and others interested will find it to their advantage not to overlook this pure Spanish merino breeder.

J. W. Barker & Co.

The large display sign of our friends Messrs. J. W. Barker & Co., the well known dry goods merchants of Market street, attracted universal attention every day during the State Fair. This sign was prominently placed in front of Domestic Hall, and called attention to the fact that the great sale of choice dry goods is still going on at the Market street store. Extraordinary inducements are held out by this prominent firm, and visitors to the city should by all means give them a call.

The American Tea Company.

The famous tea sold by this universally popular company at No. 2 St. Clair street, Pittsburgh, receives the highest premium in every family. Since the establishment of the Pittsburgh house, thousands of our citizens have confined their tea purchases to it on account of superior quality of the article and its *inferior* price. The company is receiving daily orders from city and country dealers, with the assurance that since they sell its teas and coffees, they give better satisfaction, make better profits than they did before, and their custom for these articles have increased nearly double.

Pure White Lime.

Messrs. Shortlidge & Co., of Bellefonte, Centre county, Pa., had on exhibition samples of their Wood Burnt Lime, which attracted much attention from glass manufacturers and builders. Its purity and whiteness, and extreme fineness, were subjects of oft-repeated and in fact universal commendation, and it was not to be expected that the judges could do otherwise in awarding Messrs. Shortlidge & Co. the first premium than to add to its weight an expression that it was "extremely fine." H. Pemberton, Esq., the General Superintendent of the Pennsylvania Salt Manufacturing Company's Works, and a most skillful chemist, states that the Company have consumed in their chemical processes about twenty thousand bushels of this lime, and have found it whiter and purer than that of any other make they ever tried, and he recommends it as such to any parties needing pure lime. For manufacturing glass and for building purposes this lime is certainly unequalled in the specialties of whiteness and purity, an analysis proving its properties to be ninety-six per cent. Those who have used the lime in this city are unqualified in their praise of it for manufacturing uses. Parties desiring to procure this lime can do so by addressing Messrs. Shortlidge & Co., Bellefonte, Pa.

The Premium Sewing Machine.

It is no disparagement of other sewing machine proprietors to say that Messrs. Wheeler & Wilson stand before the world as having the *best sewing machine extant*, for the reason that while every other machine will sew satisfactorily on certain goods, and some, perhaps, may be able to do more than others, the best machine is one which is not only adapted to *the whole range* of light and heavy sewing, but which will achieve the same desired results in its work *in every instance*, and the Wheeler & Wilson sewing machine, with its famous Button-hole attachment, is the only one which has successfully demonstrated its superiority by doing this. Hence, the jury at the Paris Exposition unanimously awarded Messrs. Wheeler & Wilson, with the First and highest prize, and thus confirmed the public opinion as to its great merit over all other machines. The State Fair, which closed yesterday afternoon, was the scene of renewed triumphs of Wheeler & Wilson's sewing machine, and it was again awarded the distinction it deserves. Gentlemen best acquainted with the sewing machine business compute that the whole number of machines sold approximates to one million in round numbers, and of these by far the heaviest sales have been made by Wheeler & Wilson. By means of the various improvements and attachments the Wheeler & Wilson machine now performs all that the needle ever did. It seams, hems, tucks, binds, stitches, quilts, gathers, fells, braids, embroiders and makes button holes. It is used in the manufacture of every garment worn by man, woman or child. Harness, carriage curtains and linings, buffalo robes, horse blankets, horse collars, powder flasks, mail bags, sails, awnings, whips, saddles, corsets, hats, caps, valises, pocket books, trusses, suspenders, are among the articles made by its assistance; but it is employed, quite as usefully, in making kid gloves, parasols, and the most delicate articles of ladies' attire. Messrs. William Sumner & Co., No. 27 Fifth street, are the Western agents.

Messrs. Oliver M'Clintock & Co.'s Display of Carpet Fabrics.

Messrs. Oliver M'Clintock & Co., the well-known and extensive wholesale and retail dealers in every description of Foreign and Domestic carpet fabrics, at No. 23 Fifth street, deserve the highest praise for the meritorious character of their display at the great State Fair. This enterprising firm had on exhibition a variety of their goods, which, we think, would be difficult to excel either as to their quality, pattern and finish, or the manner in which they were arranged for examination. The display constantly attracted the attention of immense crowds of delighted visitors, whose exclamations of praise seemed to be unlimited. The specimens were remarkably beautiful, while some of the rugs rival rich oil paintings, from which they could not readily be distinguished at a short distance. The establishment which made this creditable show is among those to which Pittsburghers point with pride as one which contributes largely to the commercial character of our city. The firm occupies one of the largest buildings on Fifth street, and have an immense stock of seasonable carpets, oil cloths, rugs, mats, matting, stair carpets, trimmings, shades, and everything peculiar to their trade. They import very largely, direct from the manufacturers, and take pleasure in sharing their advantages by liberal prices, with their customers. The attention of wholesale and retail buyers is especially directed to a late invoice of new and choice foreign carpets. The fashions in carpets and floor coverings vary like everything else, and house keepers should be cautious to post themselves on the prevalent styles.

Fenton's Adjustable Sheep Shearing Table

The patent adjustable Sheep Shearing Table, exhibited by Mr. G. Fenton, of Streetsboro', Portage county, Ohio, as we have before remarked, is a most useful and handsome invention that commends itself to every wool-grower, and hundreds expressed themselves, during the Fair, as being very favorably impressed with it. It is a table by means of which the sheep is held in any position desired, so that the shearer can sit or stand at his convenience, and operate with the greatest ease and comfort. It is simple, durable, convenient and economical, and the struggling and the hacking of the flesh of the animal is altogether prevented by its use. Old or young people can alike do the shearing, as the table supplies all the power necessary to keep the animal quietly in its place. Nothing in farming supplies a more pressing want than this, and there is a fortune in it to any one who will purchase the right for State or county. Persons from a distance who wish information can address the patentee, as above, who offers rights on the most reasonable terms.

Knox's Great Display.

Messrs. J. Knox & Co., No. 137 Liberty street, are entitled to the thanks of the public for their magnificent display at the State Fair. They expended a considerable amount of time and money in fitting up their booth, which was the largest, and its internal arrangement attracted every one who visited the Fair, and without exception, elicited from all the highest meed of praise. Our gallant and courteous friend Gen. Negley was complimented by thousands upon his great success in the construction of "Elfin Wilde," and Mr. Knox had all he could do in attending upon the eager throng who, naturally enough, desired to learn from him all about his famous agricultural and horticultural display. There are hundreds of strangers yet in the city, and they will find Mr. Knox at his extensive warehouse and salesroom every day, where he will be happy to introduce to their notice one of their largest and most valuable stocks of machinery, implements, garden and other seeds, fruits, flowers, etc., that can be found in the United States. Our friends at a distance will do well to cut out this notice for future reference.

Fine Display of Coke.

Within the past few years the manufacture of coke has been carried on extensively in this city, a large quantity of the article being used annually in the reduction of ores, and for other purposes. Charles H. Armstrong, Esq., one of the pioneers in the business, who has, for the past ten years, received premiums from all the Fairs held in this vicinity, entered into competition for the prize at the State Fair, and as might be anticipated, was again successful. Mr. Armstrong carries on the business on a large scale, and is prepared to fill orders for his premium coke to any amount. The coal from which the coke is manufactured is mined from his own works, so that he can manufacture any quantity desired, and can fill orders on short notice. His office is on Morton street, in the Ninth ward.

The Rowland Spring Company.

This company has lately been formed for the purpose of manufacturing the new and improved spring invented by A. H. Rowland, Esq. The company, which is composed of a number of our most prominent and substantial business men, intend to commence at once the erection of suitable buildings, which will be supplied with the machinery necessary to carry on the business on a large scale. The springs have only been introduced for a short time, but already they have proved their efficiency, and are undoubtedly the best and most complete now in the market. Their construction is very simple, being made of one continuous lap of steel, without joints, thereby obviating the difficulty now existing in many springs in use, of being easily broken or deranged. The company has had a general assortment of their manufactures on exhibition during the week at the Fair, and the attention which they have attracted cannot but prove encouraging to them. The Judges in the department in which were displayed granted them a premium, although the competition included the manufactures of some of our oldest steel spring firms. The office of the company is at No. 19 Irwin street, and carriage makers, upholsterers, and others should call at once and make themselves acquainted with the numerous advantages possessed by these truly meritorious springs.

Messrs. John Hall & Co.'s Display.

Adjoining Machinery Hall, at the great State Fair, was located the display of Messrs. John Hall & Co., of Nos. 121 and 123 Liberty, corner of Pitt street, Pittsburgh. Their contribution to the exhibition was decidedly entitled to especial mention on the ground of its manifest superiority. In it we noticed a variety of splendid plows, adapted to all kinds of work in the branch of field labor for which they are designed. They embrace the iron center with steel mould-board; the Richmond steel, left; the patent lever, low; the Michigan Double; the Wood Hillside; the improved Peacock, with steel mould-board, wrought or cast standard; the steel center; the shovel, single and double; and others, made of various sizes, and ranging in price according to size and quality. Besides these, Messrs. John Hall & Co. have a full line of agricultural implements, including hay rakes, cultivators, road scrapers, mills, etc., etc. But we wish to call attention to other machinery of this class which we regard as highly important additions to agricultural science. And first, the celebrated *Union Mower* which has met with the hearty approval and well-merited praise of practical farmers, cannot fail to become *the* mower of the times. It is manufactured by Messrs. John Hall & Co., who have the territory in Western Pennsylvania, West Virginia and Southern Ohio, and their reputation is a sufficient guarantee that the farmer will obtain in the purchase of the Union Mower a machine manufactured by the best of mechanics and from the best of material, and one which will be found among the best machines to operate in the harvest of 1868. The next is Sprout's compound steel horse hay rake, which has an independent spring to each tooth; is balanced equal to any sulky; rakes all kinds of hay or grain; works easy and is light and substantial. The pliability of the teeth is such that obstructions can be raked over without leaving the hay, or injury to the rake. It is adapted to the roughest meadows, where its great excellence will be appreciated and gleaning grain fields, which can be done by adjusting the teeth just above the surface of the ground. It is mounted on wheels and has a good seat for the operator. Then there is the renowned Union Hay Rake a self-discharging independent steel tooth rake, with cast iron hubs and wrought iron axles. With it the driver moves a lever by exerting a force of only four pounds, throws the rake into gear, and the labor of the horse which has been exerted to move the body of hay, is now partially employed to raise the rake head and discharge the hay, after which the head falls back to its place by its own gravity. This gives more uniform draft to the horse, while relieving the driver from nearly all the labor in the operation thereof. The American Cider Mill is the best extant. From actual experiment it is found that it will make one-fourth more cider from a given quantity of apples than any other, and with only three-fourths of the labor. Messrs. John Hall & Co., will warrant that in pressing three hundred bushels of apples the saving in cider between it and the usual "grating" mills, will pay for the mill. As it will grind from forty to sixty bushels of apples per hour, a very small additional yield of cider is sufficient to do this, and any one can gain the price of the mill in six days' work. Foust's Hay Loader is an invaluable and famous invention, warranted to do good work on all kinds of hay, in windrow, heavy unraked, and all kinds of loose grain. It works clean and quick, and will pitch a ton of hay in three minutes. Two men can build a ton on a wagon in from five to eight minutes, and it requires no extra man or horse to work it. It is attached to the rear of the wagon or cart, and is drawn over only the power of one man. It is demonstrated to be one of the most useful inventions of the age for agriculturalists. All the implements sold by Messrs. John Hall & Co., are manufactured from the best material, and for durability, strength and general purposes, cannot be surpassed. It is their determination that the quality of material used, and the workmanship shall be equal, if not superior, to any other establishment in the country. Their experience justifies us in saying to the public, who may favor them with their orders, that every exertion will be made to furnish their customers with a superior article, at fair rates, and a promptness in filling orders to their wishes.

The Fire Extinguisher!

At half-past four o'clock yesterday afternoon this new candidate for notoriety was brought before the visitors of the Fair for a demonstration of its merits as a fire extinguisher. A building twelve feet square had been erected; a quantity of shavings and crude oil put inside, with two shelves midway between top and floor, filled with shavings and oil. This pile of highly combustible matter was set on fire; after the building was one mass of flame and fervent heat, four of the little extinguishers were brought to bear upon it, and after the *wonderful* work of the diminutive engines the flames (which bid fair to defy the Extinguishers) were *entirely put out*, and in *ten* minutes every burning ember was *thoroughly extinguished*. The crowd of people which witnessed the trial gave a hearty cheer in favor of this novelty. W. W. Parish, No. 42 Fifth street, is the agent for the sale of the Fire Extinguisher for Allegheny, Beaver, Fayette, Lawrence, and Green counties.

Fine Table Glassware.

The thousands of visitors to the Fair, as they passed through Mechanics' Hall, could not but admire the beautiful specimens of fine pressed flint glassware, for table use, exhibited by Messrs. James B. Lyon & Co. the well-known glass manufacturers. The firm had on exhibition during the Fair some of the finest specimens of flint pressed glassware in the country, and their world-wide fame for superior manufactures of this kind was well sustained. The works of the firm, which are located on the corner of Duquesne Way and Smith street, in the Ninth ward of this city, are among the largest in the West, and turn out daily an immense stock of the finest table glassware. The firm have recently commenced the work of engraving their finest pieces of glassware; and although this invention has been introduced but a short time into this country, it is meeting with great success. The engraving is done in the most beautiful and tasteful style, and cannot wear off. The finest specimens of flint glassware can be engraved. Among the specimens of engraved ware which were on exhibition at the Fair, were the most delicate tumblers, bowls, pitchers, cake dishes, &c. The warehouse of the firm is at No. 116 Water street, where all persons desiring to examine the various specimens of glassware can do so. Orders sent through the mail will receive prompt attention.

The Weed Triumphant.

The renowned Weed Sewing Machine for which Major Long, No. 112 Grant street, is the agent, was triumphant at the State Fair, which closed yesterday. The judges awarded it the highest prize for light and heavy work, and the first premium for a suit of boys' clothing made upon the Weed machine. The Wheeler & Wilson machine received the *second* mention and the Empire machine the *third*—the others were not mentioned at all. This is a splendid triumph for the Weed Sewing Machine, and fully stamps it as the *best* machine in existence. Those who wish to own the *best* will make notes of these facts.

STATE CHRISTIAN CONVENTION.

To the Pastors and Brethren of the Christian Churches in Pennsylvania, Eastern Ohio and West Virginia.

A desire has been expressed that the Pastors and Brethren of all the churches of Christ in Pennsylvania, Eastern Ohio and West Virginia, should meet together for the purpose of stimulating each other to greater activity in the cause of Christ, by means of united prayers to the Head of the Church, and by a free interchange of opinions and experience in regard to questions pertaining to practical christian effort. Never was there greater need for united christian activity. The fields are ripe for the harvest. The work of Christ among the young; home evangelization; efforts to be made to spread the Gospel among the poor and neglected, and the duties of Christians as connected with these efforts, are subjects of such importance that united prayers and consultation seem to be most desirable. To this end, The Young Men's Christian Association of Pittsburgh, in conjunction with the Pastors and Ministers whose names are annexed, have decided to call a Christian Convention, similar in character and objects to those which have been held in Massachusetts, Maine, Wisconsin, Illinois, and other States and which have been already so fruitful of good to all connected with them.

We do, therefore, most cordially invite all the Christian Churches of Pennsylvania, Eastern Ohio and West Virginia, to send delegations of the pastor and two or three laymen, to meet in Convention with us at Pittsburgh, on Tuesday, Wednesday and Thursday, the 22d, 23d, and 24th of October next. The Convention will assemble for organization and devotional exercises on Tuesday evening, at 7½ o'clock, and the sessions of the Convention will close on Thursday. On Thursday evening will be held the Anniversary Exercises of the Young Men's Christian Association. No credentials will be required, but it is desirable that parties should notify the Recording Secretary of the Young Men's Christian Association of their intention to attend the Convention, and that on their arrival in the city they should report at the Association Rooms, No. 23 Fifth street, that homes may be provided for them. Arrangements are being made with the various railroads, by which persons who attend the Convention, and pay full fare to this city, will be furnished with return tickets over the route by which they came.

PITTSBURGH, Pa., September 1, 1867.

OLIVER M'CLINTOCK, President, Y. M. C. A.
J. A. EMERY, 1st Vice President, Y. M. C. A.
A. B. RIGGS, Recording Secretary, Y. M. C. A.
Committee.

[Signed by thirty-six ministers of the city.]

The Business Committee are already engaged in preparation of the order of exercises, topics for discussion, &c., the details of which will be published at an early day. It consists of the following gentlemen: Rev. S. F. Scovel, Hon. H. W. Williams, LL. D., M. A. Woodward, Esq., J. W. F. White, Esq., Wm. Frew, Esq.

The circular of this call has already been sent to most of the evangelical pastors to whom it is addressed, and as the Convention will undoubtedly be very large, it is of the greatest importance that the churches of Pittsburgh should extend the largest and most cordial hospitality to the delegates. To this end it is requested by the Committee of Arrangements that the pastors of churches in sympathy with the call, give notice of the Convention at the earliest moment to their congregations, and urge upon all who can, the offering of accommodations to the delegates in attendance. The particulars as to name, residence and number to be accommodated are to be reported to the Church Committees of the Young Men's Christian Association, or the respective churches where these exist, and in their absence, through the pastor or other church officers, to the rooms of the Association.

THE SECOND WARD ALL RIGHT.—A poll of the voters of the Second ward, Pittsburgh, has been made, which resulted in showing a majority for Judge Williams equal to that received by the lamented Lincoln, which was three hundred and sixteen. If every district in the county does as well as that, Judge Williams will have nearly if not altogether ten thousand majority.

Riotous Demonstrations in Italy.

Fenian Outbreak Feared in Dublin.

GUNBOATS SENT TO IRISH COAST.

Omar Pasha's Resignation Withdrawn.

Riot at Udine.

FLORENCE, September 26.—Serious riots have broken out at Udine, sixty miles from Venice. Armed bands parade the streets, clamoring for a revolution. These bands were largely composed of Garibaldian volunteers, who had been compelled to fly from the Roman frontier by the Italian troops.

Disturbance in Geneva.

GENEVA, September 26.—Crowds of men assembled in the streets yesterday and loudly called for the release of Garibaldi. Some violence was done but no one injured.

Tumults in Italy.

FLORENCE, September 27.—The partizans of Garibaldi are creating tumults in various parts of Italy for the purpose of obtaining the release of their leader. It is reported the King is about to issue a proclamation calling an extraordinary session of Parliament.

The Fenians.

DUBLIN, September 27.—Fears are entertained that the Fenians here, emboldened by the success of the mob at Manchester, will make a similar effort to rescue Capt. Morriarty, who is now undergoing a sentence of imprisonment. The Government is taking all necessary precautions against such an attempt. Forty of the Fenian convicts who have hitherto been imprisoned in Irish jails have been sent to Porland, England, for safe keeping.

Gunboats Sent to Irish Coast.

LONDON, September 27.—Owing to the report that a supposed Fenian vessel had been seen off county Kerry, the Government has dispatched a number of gunboats to guard the southern and western coast of Ireland.

Resignation Withdrawn.

MARSEILLES, September 27.—Advices from Constantinople state that Omar Pasha has withdrawn his resignation, and will remain at Canea, the capital of Candia, should the Sublime Porte desire him to retain his command.

Shipping Intelligence.

LONDON, September 27.—The steamers Columbia, Atlantic, Allemania and Persia have arrived out.

NASHVILLE.

Grant Orders Thomas to Sustain the State Authorities--Withdrawal of Conservative Candidates--A Peaceful Election Expected.

NASHVILLE, September 27.—Matters have quieted much to-day. Last night General Thomas received a dispatch from General Grant, telling him that the military cannot be made use of to defeat the executive of a State in reference to the laws of the State, and ordering him not to prevent a legal State force from executing this order. A copy of this dispatch was transmitted to Mayor Brown, who to-day wrote to Thomas stating that he had not consented to resistance to the law, nor desired to defeat the executive of the State in his efforts to enforce the law. He had only designed, if not prevented by armed violence, to hold a strictly legal election in a perfectly peaceful manner, and in accordance with the city charter. He requested Thomas to inform him whether he (Thomas) deemed it his duty under the order of Grant, to uphold Cooper, Commander of the State Militia, in his threatened determination to prevent the election under the charter, adding that in that event he had no choice left but to yield to the authority of the United States with respectful and emphatic protest against the signal and deplorable mistake.

Thomas, in reply, stated that the proper interpretation of Grant's order is to sustain the State authorities in the execution of their orders, it not being his province to decide the question of the legality or illegality of the election ordered by the city authorities. Thomas subsequently issued an order for the disposition of a military force, cavalry and infantry, to protect the Commissioners of registration and the State authorities to-morrow in holding the election. The Board of Aldermen met this evening, and withdrew the officers appointed by it to hold the election.

Mayor Brown, who was a candidate for re-election, has withdrawn. Cotton, another conservative, has also withdrawn. This leaves the field to Alden, a Northern radical, and Scovel, an old citizen, also radical. Alden will be elected. The Republicans are highly elated with the issue of events, whilst the opposition are correspondingly depressed. The election will be quiet and peaceful.

SAN FRANCISCO.

Navigation of Colorado River--Machinery for North Carolina Mines--Goods for the Interior.

SAN FRANCISCO, September 27.—At a meeting of merchants to consider the navigation of the Colorado, facts were produced to prove that goods can be carried from this city to Callville, six hundred miles above the mouth of the river, for four cents a pound, and transported thence to Salt Lake at a good profit. The passage can be made at all seasons of the year in ten to fifteen days. It is proposed to subscribe $50,000 to build a new steamer to run in conjunction with one already in the rivers. Great interest is evinced in the project.

The Panama steamer which sails on the 30th ult. will take machinery for twenty stamp and quartz mills from a foundry in this city, for the mines at Kings Mountain, North Carolina.

A great Sacramento last night destroyed the Waverly Hotel. The boarders and landlord escaped by leaping from the windows.

Large quantities of goods are going to all parts of the interior for winter supplies, taxing all modes of transportation to the utmost.

It is reported the North American Steamship Company are preparing to compete vigorously for a portion of the large freight and passenger business via Panama.

ST. LOUIS.

Laclede Races---Fair---Illinois State Fair.

ST. LOUIS, September 27.—The fall meeting of the Laclede Racing Association will commence on Monday next. Stables from Ohio, Kentucky, Tennessee, Indiana, Illinois, Alabama, Iowa and Missouri are on the ground with a larger number of horses than ever before assembled on any course in this country. Fifty-six horses are entered for races on Monday. The first race will be a two mile dash over eight hurdles, four feet high.

The seventh annual fair of the St. Louis Agricultural and Mechanical Association will commence October 7th, and promises to be the largest ever held here. Entries of stock, agricultural products, machinery, textile fabrics have been made from nearly all the Western States, and many fine horses and cattle will be here from New England.

The Illinois State Fair will be open on Monday next at Quincy, where extensive preparations have been made, and the finest grounds in the country have been provided for the occasion. These grounds belong to citizens of Quincy, who have spent nearly one hundred thousand dollars in permanent improvements on them.

American Board of Foreign Missions.

BUFFALO, September 27.—The American Board of Foreign Missions held sessions to-day, and elected the following officers for the ensuing year: President, Mark Hopkins, D. D.; Vice President, Hon. Wm. E. Dodge; Prudential Committee, Chas. Stoddard, Nehemiah Adams, D. D., Augustus C. Thompson, D. D., Hon. Wm. T. Eustes, Walter S. Griffith, Hon. Elpheus Hardy, Hon. Lenues Child, Rev. Albert Barnes, Robt. R. Booth, D. D., Abner Kingman, Esq., Jas. M. Gordon, Rufus Anderson, D. D. Corresponding Secretaries, Rev. Zeliah B. Tiet, Geo. W. Wood, D. D., and Nathaniel G. Clark, D. D. Recording Secretary, Rev. Jno. O. Means. Treasurer, Hangdon S. Wood. Auditors, Moses L. Hall, Joseph S. Roper. The two principal churches were filled with large audiences to-night to hear addresses from the Board.

Buckeye Club Races, Cincinnati.

CINCINNATI, September 27.—There were two races at the Buckeye Club Course to-day, the first, Ohio stake, for three year olds, two mile heats, $100, entrance $25 declared last January, $50 forfeit September 1st, the Club to add $500, closed with sixteen entries, but only two horses started, Buford's sorrel filly by Lexington, and Swigert's Fannie Cheatham. The latter won both heats; time 3:43½ and 3:51. The second race, handicap for all ages, purse $500, two and a half mile dash; Mack, Privateer and Caledonia were the contestants. The race was won by Mack, Caledonia coming in second. Time 4:38½.

The Election in New Orleans---First Day's Voting.

NEW ORLEANS, September 27.—The *Republican* has full returns of the vote cast to-day in the first, second and third municipal districts of this city. In the first district there were 2,540 votes cast; in the second, 2,253, in the third, 2,297. Total, 7,090. Nearly all the votes were for convention. The number of registered voters in these districts is 24,235. The *Republican* expresses fears that unless the vote is heavier to-morrow, the proposition for a convention will fail, the law requiring a majority of registered voters to vote or the election fails.

Important Decision.

RICHMOND, September 27.—Judge Parker, of the Circuit Court of the State, has rendered a decision that when old banks make assignments under the act of February, 1866, they cannot give preference to any class of creditors; that note holders have no preference over depositors; and deposits in Confederate money are to be treated as debts of the bank to the extent of their value at the time of deposit.

A considerable majority of the journals of Virginia oppose the calling of a Convention.

Funeral of Captain General Manzano.

HAVANA, September 26.—The funeral of Captain General Manzano took place this morning. The procession stated at half past seven for the Cathedral, where a solemn requiem mass was celebrated by the new Bishop of Cuba. The remains lie in state until the 30th, when they will be shipped to Spain. The procession was very long and imposing, and occupied forty-five minutes in passing a given point.

Three Negroes Hung.

MOBILE, September 27.—The three negroes who committed the outrage on Day River were hung to-day. There was an immense crowd in attendance, but no disturbance.

Democratic Nomination in Baltimore.

BALTIMORE, September 27.—The Democratic Conservative Convention unanimously nominated Hon. Robert T. Banks for Mayor.

THE CAMPAIGN.

The Ninth Ward Meeting Last Night.

Speeches by H. C. Mackrell, General J. K. Moorhead, Thomas Howard and John M. Kirkpatrick, Esqrs.

The citizens of the Ninth ward held a mass meeting last night on Baldwin street, near the school house, about fifteen hundred persons being present.

The meeting was called to order at half-past seven o'clock and the following officers elected:

President—H. C. Mackrell.
Vice Presidents—A. J. Cochran, T. W. Welsh and Samuel Marshall.
Secretaries—Wm. Johnson and the Reporters of the press.

The President, on taking the chair, made a brief speech expressing his thanks for the honor they had done him, and his gratification at being able to meet with them after a long absence. He concluded by paying a high compliment to Hon. J. K. Moorhead, whom he announced as the first speaker.

SPEECH OF MR. MOORHEAD.

The speaker said he would in the first place thank the President for his flattering introduction, and his hearers probably knew whether it was true or not. [Voices, "It's true."] He had other engagements that would seem to require his presence at home, but he was there at their bidding and would tell them to do their duty. Why should he come to the men of the Ninth ward to tell them to do their duty? But we had fallen on evil times and it was necessary for every one to do their duty. Many present had suffered and made sacrifices for their country and were suffering now.

The Democrats had said we could not succeed in beating down the rebellion; that while the people of the South intended to put down the Government, we could not restore and secure it, and at the same time men in the old world looked upon us with dread and suspicion, and aided the rebellion. This carnage went on for five years, and the patriotic sons of the North determined that the war should be prosecuted until it ended in a glorious victory; we were sometimes, at first, defeated, but we had a patriotic, noble President in the White House.

He gathered up the feelings of the people and was carried along by them. At length, after many defeats, we did succeed. Lincoln was seeking to find what evils were to be removed that we might have victory, and slavery was abolished by the United States of America. And when it became necessary the musket was placed in the hands of the black man. After slavery was abolished we succeeded. After that element was called into action, we began to have victory, and victory should have been the end of the matter.

Lincoln was shot by an assassin and taken from us and Andrew Johnson became President and betrayed us. It was a gloomy day in Congress when the assassination took place, but now we were in almost as gloomy a place, but the Great Being who had placed us here on this continent would carry us safely through. Our Government was divided into three departments. The President in the executive power had performed an act that should be condemned by the American people, in removing the gallant soldiers Sheridan and Sickles from the positions they had so nobly earned.

The President had an armed force in Maryland ready to serve him, and in the opinion of the speaker, that State was in greater danger than ever before. This traitor President, sustained by the men who we defeated in battle, was determined, he believed, to upset the Government. He only wanted encouragement to go on in this way. The Democrats would try to make use of him and he would probably try to make use of them. The election, with the exception of the Supreme Judge, was considered by some as unimportant, but if Johnson should be encouraged by the vote of the State of Pennsylvania, he would declare himself a dictator the morning after the election.

Judge Williams was an exemplary gentleman and an eminent jurist, and the State Convention had honored this county by giving us the nomination. It was necessary to elect the Republican ticket. These outside issues should not be brought into the question, but it did not affect Judge Williams. All Republicans who might vote for the workingmen's ticket should vote for the Republican ticket. Speeches would be made for and against the Workingmen's ticket. Mr. M. was glad when he heard Governor Geary tell the people that he was a workingman and a temperate man, but was not in favor of running separate tickets, but in favor of supporting those who labored for the true friends of labor—the Republican party. The South had dictated to the Democratic party their course for years on the tariff question. The speaker had been ruled out of a Democratic Convention because he had been in favor of protection to home labor. Nearly all of the men on the Republican legislative ticket were working men, and men who were from other reasons entitled to the support of the voters of Allegheny county. A high tribute was paid to the patriotism of Major Dennison, who had lost a leg in the cause of his country.

At the close of his address the General was loudly cheered.

SPEECH OF THOS. HOWARD, ESQ.

Mr. Howard was introduced and said he had listened with pleasure to the remarks previously made, and did not think he could add much to them, but would address himself at first to the many young men in the ward, and those who cast their first vote should look well to what influence any vote they might cast would have on the interests of the country. The great Union party that had restored peace to the land were entitled to their first vote. They would not, it seemed to him, have reason to regret their first vote if they voted for that party. It was difficult to convert those who had been brought up in the interests of the old Democratic party. Take the rank and file of that party, and ask them if they were in favor of the success of the rebellion, and they would say no. But every party must be held by the record they made. The Democrats had declared that the war was a failure. Before the war they threatened secession in case the Republican party should triumph, and Lincoln elected. That was their war cry. They established, as far as was in their power, an independent government.

The course of the Democratic party in the North was reviewed by Mr. Howard, who spoke especially of their course in reference to the judicial department. The decisions of the Supreme Court were such as would have aided the rebellion, and the Union party had to go before the people of the State and amend the Constitution, in order to get over these improper decisions.

The Democratic party was ready to pursue, and was indeed pursuing the same course fraught with peril to the country. The people were interested in the election of the judiciary as a political question. Great political question might and would come before that body. It was necessary to have true men there now when the very air was fraught with danger, on account of the usurpations of Andrew Johnson.

The President had said a year ago that Congress was an illegal body, and it was believed by many men that he would endeavor to break up that body. The troops in rebel gray in Maryland were not drilling and reorganizing for no purpose.

The great issue growing out of the war should be settled by the loyal men of the country, and by them alone. Those who had participated in the rebellion stood before the nation as criminals, and it was absurd to think of placing them on a Jury for their own trial. The speaker retired amid loud cheers.

SPEECH OF JOHN M. KIRKPATRICK.

John M. Kirkpatrick was then introduced and said his presence among them was an annual infliction. The labor of discussing the main political questions had been spared him, as the previous speakers had discussed the matter thoroughly, and he wished simply to say a word to the working men.

He made a brief and eloquent speech, urging on the laboring men the necessity of supporting true principles and supporting the Republican party, which really represented their interests. He concluded with an eloquent appeal to all working men under any circumstances to support Judge Williams and maintain the principles of the great Republican party. He was frequently applauded. At the conclusion of his remarks the meeting passed a vote of thanks to the speakers for their eloquent addresses, and adjourned.

REPUBLICAN MEETING AT BRADDOCK.

A large and enthusiastic Republican meeting was held at the borough of Braddock's Fields, on Thursday evening. A very large majority of those present were workingmen, who evinced their approbation of the ticket, by their frequent demonstrations of applause. Able and stirring speeches were delivered by Hon. P. C. Shannon, Major Russell Errett, Thos. Howard, Esq., and Chas. W. Robb, Esq., each of whom referred to the importance of the approaching election, and calling upon every loyal man to set himself immediately to work and secure the success of the whole Republican ticket.

MEETINGS TO-NIGHT.

A grand Republican rally will be held to-night in the Diamond Square, Birmingham. Addresses will be delivered by Hon. J. K. Moorhead, Hon. R. B. Carnahan and John M. Kirkpatrick, Esq.

The Union Republican voters of McKeesport and vicinity will hold a grand rally to-night in the Diamond Square, in that borough. Able speakers will be present and address the meeting.

The Republicans of the Seventh ward will meet this evening at the School House to organize for the campaign.

MEETING AT CLINTON.

The Republicans of the western section of the county will hold a mass meeting at Clinton, in Finley township, on Wednesday next. A number of able speakers will be present.

The Port Grape in New Jersey.

The following cannot fail to satisfy any sceptical person about Speer's wine being purely a grape juice wine:

PASSAIC, October 23, 1865.

This is to certify that I have been a resident of Passaic for the past twelve years, during which time I have known Mr. Alfred Speer, and been thoroughly posted in the manufacture by him of his celebrated wines, and can testify to the fact derived from a personal knowledge that his excellent Port Grape Wine is made entirely from the Oporto Grape, which he extensively cultivates in vineyards in sight of my residence. The Port Grape vine is a variety of his own raising, cultivated exclusively by himself, and is a superior grape.

C. M. K. PAULISON,
U. S. Deputy Collector Int. Rev.

Our druggists have some of this wine, direct from Mr. Speer.

Letter from Hon. E. H. Washburne,

Member of Congress, and Chairman of the Committee on Ways and Means.

PARIS, July 10, 1867.

MR. STEINWAY—*Dear Sir:* Permit me to avail myself of this occasion to congratulate you upon your eminent success in obtaining the *First* of the Gold Medals awarded to Pianos at the International Exposition in this city.

It is more gratifying to every American citizen, as it seems to be understood that by your new system of Piano-making, you have placed the United States at the head of this industry for the entire world.

E. B. WASHBURNE.

These famous Steinway Pianos can be found in this city at H. Kleber & Bros.' warerooms, 122 Wood street, who retail and wholesale them at factory prices.

The Best Organ Made.

We bespeak for the Carhart Organs the first place in the list of Church Organs. Having had some experience with other makes (Mason & Hamlin's,) we must say that the Carhart & Needham Organ now in our possession, far surpasses in richness, variety, and power of tone, any other instrument we have ever had.

B. C. CRITCHLOW,
Pastor Presby. church, New Brighton.

I feel satisfied that the Carhart Organ we now use is an instrument of much more power and capacity than the one we had before of Mason & Hamlin's make.

S. S. M. FERRAN,
Leader of Choir.

H. Kleber & Bro., 122 Wood street, Pittsburgh, are the sole agents for these celebrated silver tongue Church and Parlor Organs.

PETROLEO-CALCIUM GAS.

One of the most valuable improvements of the age is the process of manufacturing Gas by the

Petroleo-Calcium Gas Company,

OF WHEELING, WEST VIRGINIA,

Upon patents of Fr. J. H. Connelly, from an almost valueless product of Petroleum Oil, (*residuum*), in combination with *lime* or *lime and coal*, so simple that Two Thousand Feet of Gas may be made by any farm hand or stable boy of ordinary intelligence in three hours. It has been thoroughly tested upon such a scale, at the McLure House, in Wheeling, and at the country residence of Mr. J. P. Gilchrist, near the same city, as to fix the certainty of its affording entirely satisfactory results in the production of small and large quantities of Gas, and can be with great economy applied to *Private Residences, Seminaries, Hotels, Factories and Cities*. It is superior to any Gas now in use, not only as to the safety, simplicity, practicability and great cheapness of manufacture, but for its superior brilliancy, soft influence upon the sight, and freedom from the sulphurious odors common to Gas.

These facts the officers of the company will take pleasure in demonstrating to those desiring to adopt or interest themselves in it. The company will sell rights to manufacture in Towns, Counties, Districts or States, and direct attention to the following

TESTIMONIALS.

WHEELING, W. VA., August 6, 1867.

To the President of the Petroleo-Calcium Gas Co.:

SIR—We have thoroughly and carefully investigated the construction and workings of the apparatus for manufacturing Gas according to your company's patents, and the combinations of materials used, as now working upon the McLure House in this city, and county residence of J. P. Gilchrist, Esq., near this city. For simplicity, durability, economy and safety, we consider it superior to any other method of manufacturing Gas that we are acquainted with. We cheerfully recommend its adoption by all Gas consumers.

Very respectfully,
A. J. SWEENEY, *Mayor of Wheeling.*
W. W. MILLER & CO., *Union Foundry and Engine Works.*
WM. HARE, *Plumber and Gas Fitter.*
W. F. GOODWIN & CO., *Prop'rs. McLure House.*
WM. A. TURNER, *Jeweler and Watch Maker.*
SWEENEY & CO., *Machinists & Engine Builders.*
WM. D. TERRY, *General R. R. Ticket Agent.*
LOUIS GAUS, *Proprietor McLure House Saloon.*
And refer by special permission to
JAS. M. CHRISTY, Esq., *Pittsburgh, Pa., formerly Treasurer City Gas Co.*
S. H. GOLLTHARP, Esq., *Gas Engineer, Pittsburgh, Pa.*

[From the Pittsburgh Post, June 28.]

WORTHY CANDIDATES.

"The nomination of Henry W. Williams as a candidate for Judge of the Suprema Court, is a good one. He was the best man named before the Republican Convention, and possesses legal and moral qualifications for the responsible position to which he has been nominated. Both parties have now presented their candidates. An important duty has been faithfully discharged by the respective conventions. The campaign may now be conducted without personal aspersions, and decided upon the principles of the two great parties. This is as it should be."

[From the Pittsburgh Post, August 29.]

If the notice of Judge Williams's nomination which appeared in the "*Post*" at the time, and now kept standing at the head of the Republican papers, is intended as a rebuke for any supposed inconsistency since, it fails in its purpose. We have nothing to take back or modify. Of Judge Williams's private or legal reputation we have nothing but words of praise, and however it may suit some pugnacious and heady politicians, we cannot bring ourselves to view personal assaults as either wise or politic. The Democracy plants itself upon principle and deals with facts, and discusses the public and official acts of candidates.

THE Boston *Post* calls upon the Democrats of Pennsylvania to "make a Gettysburg fight" on election day. That is what they have always done—on the rebel side. Like the rebels they have always been defeated, and they will be again. The advice of the *Post* was unnecessary.

WE understand that General SHERIDAN contemplates spending a portion of his furlough in the anthracite coal regions of Pennsylvania. After so long a term of duty of the most arduous description, he desires recreation and rest. This is said to be the first furlough he has had in twenty years.

THE New York *Times*, whose editor, Mr. RAYMOND, was among the irregular delegates not admitted, speaking of the Union State Convention, says it "performed the work quickly and well;" that "the proceedings in regard to the irregular delegation evince a more liberal despotism than pervaded last year, and will do much toward perfecting party unity." The *Times* gives the platform and ticket a hearty indorsement.

MR. WEED, with a company of delegates, went to the New York Republican State Convention, but the Convention politely bowed them all out and proceeded to its legitimate business. So well did it go through with it that T. W. can find but little fault. The ticket, he thinks, is a good one, and the platform unexceptionable. For once a Convention has been held in New York which Mr. WEED did not "run," and he "pities the poor thing" thus:

> "Our own course will be governed by the decision of our friends. We shall not hesitate to advise, notwithstanding the injustice they met with, that the Republican party should be commiserated rather than reproached for being temporarily misled by prejudice and passion. It will soon enough, and with 'a remorse that comes too late,' learn how fatally it has erred."

The *arguments* of the *Post* against Judge WILLIAMS based on the circumstances that Connecticut is his birth place, have given place to equally rational alarm lest the negroes of the land should get the upperhand and every white man be compelled to marry a black wife. The truth is, our contemporary realizes the vital importance of attempting to blind the people to the fact that the question before the country is, *shall* ANDREW JOHNSON *be indorsed or condemned?* During the war, when the question was, Shall the war go on?—and when the Democrats took the rebel side—the people were told that it was not the issue, that it was the negro. But the people did not believe the Democrats then, nor will the people believe them now. The ingenuity of the *Post* then to distort the issue, could not blind the public to the truth in those dark days of peril, nor will they succeed better now that treachery has imperiled all the fruits of victory.

THE Democratic papers in general, and the New York *Tribune* in particular, have set afloat and repeated the report, inspired from the White House, that General GRANT was in agreement with the President in favor of a uniform day for the elections in the South—which would virtually be a postponement. To this it is added, that Gen. GRANT is expected to issue the order necessary to carry out Mr. JOHNSON's idea. Now, the truth is, there is no truth in this report. This is but another attempt to inculpate Gen. GRANT in the schemes of Mr. JOHNSON. In the language of a trustworthy report—

> General Grant will do no such thing, and the people should understand that, although such statements through the ramifications of the President's connection with the press of the country, often find their way to right loyal journals, they are not worthy of credence. I have the best authority for denying the statement, and can repeat what has already been stated in these dispatches, that General Grant will be the last man to interfere with speedy reconstruction in the South. It may become necessary to postpone the election in Louisiana on account of the yellow fever, and General Marvin may ask General Grant's advice in the matter, but if it is done it will be for other than political reasons.

A NUMBER of neighborhood politicians, of different calibres, have issued a call for a JOHNSON demonstration. In the interest of decorum it may be hoped that their demonstration may be more creditable to him than his own in this city was, a year ago. But, really, without calling in question their deep *interest* in Mr. JOHNSON, we must say that their proposed action looks about as much like a measure for their own advantage as for his. We admit, however, that in the equivocal position of both the principal and the accessories, it is difficult for an outside observer to determine certainly whether they are in the act of *boosting* Mr. JOHNSON or hanging on to his coat tail. The proposed assembling of the politicians will perhaps solve the difficulty. It will, at all events, afford an opportunity for negotiations with the Democratic party in the neighborhood, with an eye to a better feeling towards the Democratic candidate for the Senate, and by bare possibilty it may induce some of the Democrats, contrary to the New York *World*, to indorse Mr. JOHNSON.

THE organ of the workingmen—(we do not accord to them the exclusive right to the term)—talks of polling ten or twelve thousand votes for their ticket. There can be but one motive for making such large and groundless pretensions, for groundless they certainly are. Our cotemporary should know more than ourselves about the strength of the aforesaid workingmen's party; but if he insists on the above number, or anything like it, we shall be compelled to say that he betrays lamentable ignorance. So far from any such number of votes being cast for that ticket, we venture to predict that it will not exceed the fourth of twelve thousand, and it is more likely to fall a good deal under that number. We protest against attempting to delude workingmen into the belief that there is the shadow of a chance to elect any one on that ticket. It is not right to pretend anything of the kind, and attempt thus to play upon the credulity of honest men. There is no chance for a single candidate on the workingmen's ticket—unless three thousand votes will elect in Allegheny county. Let our cotemporary bear in mind what we now say, and when the election is over tell us which was the best prophet. We again caution Republicans against throwing their votes away. Even should every Democrat redeem the pledge made to the ticket, the whole number would not be one-fourth of enough to elect. But they will not redeem the pledge. Such pledges have never yet been redeemed by them, and this year is not going to be an exception.

THE extent to which revenue frauds are perpetrated is attracting much attention, and suspicion of something wrong in the administration of that department of the Government is becoming very general. We know nothing in particular about Commissioners ROLLINS, who has the immediate supervision of the details, but we regretted recently to see him defended and his removal resisted by some of the most notorious jobbers and blackmailers in the country. He, no doubt, is an honest and faithful officer, but has the misfortune of having scoundrels believe that it is better to have him remain than removed. In Mr. McCULLOCH, we hear a sloppy black mailer declare his disbelief and utter want of confidence—a circumstance greatly in his favor. Nevertheless the revenue service is wretchedly administered. In some quarters frauds and corruption are becoming the rule and honesty the exception. And as to this, we quote the following from the Philadelphia *Telegraph*:

> Revenue officers are appointed and removed, not with reference to their ability, their integrity, their fitness for the duties they are expected to perform, but for the influence they are expected to wield in the approaching elections. Honest, vigilant, and successful officers have no guarantee, in the faithful discharge of their duties, that they will not be sacrificed upon the altar of political necessities. Such officers, in their warfare upon the cormorants who are plundering the revenue, are not sustained by the Government. It is a startling fact, but one capable of demonstration, that at the present moment appointments in the revenue service in this city *are being dictated by the whisky thieves and fraudulent distillers who are daily robbing the Government of tens of thousands of dollars!* They swarm around the Treasury Department like buzzards around a carcass, and reel into the presence of the chief officers of the Government to make their unblushing demands. The result is what might be expected. The whole revenue service is becoming hopelessly, mortally demoralized. The whisky frauds are more gigantic and open than ever before. Contraband spirits flood the market, and are daily sold at prices per gallon far below the Government tax. The fatal corruptions of this branch of the service react upon other branches. The people are being familiarized with fraud, and the work of public demoralization and degradation goes on apace.

BIRDS OF A FEATHER.

We note, as a remarkable illustration of the flocking together of birds of a feather, the fact that a writer in *Blackwood's Magazine*, the most intensely anti-American periodical in Great Britain, has assailed our financial credit in the same strain and style as the Democratic party do here at home, and evidently with the same *animus*. The wish, common to the foreign tory and the Democrat, may justly be charged with the parentage of the thought, in whatever each may say about the financial condition of the United States. And what they say against the soundness of the condition and against the ability of the Government to meet honestly and fully its obligations, may, in the case of Democrats here, be attributed to "ignorance, malice and falsehood," which Mr. Commissioner WELLS; in the London *Times*, has shown to have been the source of libel in *Blackwoods*. Of either and of both it may be truly said that a more wanton and wicked hostility to the honor of our Government and the interests of our people was never shown by the rebels in arms than is exhibited by these attempts to destroy the credit of the country and introduce embarrassment and ruin into all departments of business and society.

The British tory may go on, misrepresenting and falsifying with impunity. He is out of the bailwick, and his hereditary antipathy and jealousy toward our country are incurable and measurably impotent. But the Democrats, who adopt the same method of warfare against the interests of the great body of the people, are within ballot range. Their libelous attacks on the finances of the Government, and the pecuniary interests of every industrious and honest citizen, have been made, without stint, in our own Commonwealth. Their newspaper organs have not dared to publish the views, as expressed by himself, of their candidate for the Judgeship on this subject. That party should be held to a strict accountability, three weeks hence, at the polls, for their British tory statements on the question most important, individually, to every man who owns, or is trying to earn, a dollar by honest toil. Let every man vote as giving his testimony against the British tory's lies abroad, and against the Democratic falsities and insinuations at home. By voting for Mr. WILLIAMS, the testimony will be direct and unequivocal. A victory of this sort will nip a horrible scheme in the bud.

FINISH THE WORK.

There is a proverb, more correct than complimentary in its application, about fools and children seeing unfinished work. Their judgments and suggestions are of no manner of use, and commonly betray, by their absurdity, the incompetency that prompts them. The criticisms and opinions that proceed from minds warped and stiffened by prejudices, are entitled to little more consideration than those of fools and children.

It is amusing to reperuse the grave and oracular treatises on American affairs, found in the higher class of British Reviews, of the date of 1861 and 1862. It gives the reader a pleasant illustration of the apothegm, that "great men are not always wise," to compare their confident predictions of success to secession and of rupture to the Union and of enfeeblement to the country, with the condition of things actually existing. They saw unfinished work and criticised it without judgment. So did the Democratic party in this country. Deriving its inspiration from the same source as the British, and befogged by the same prejudices and wishes, it indulged in similar vaticinations of ruin, as late as the Chicago Convention of 1864. And the chief business of the party, ever since, has been to make its prophecy true, by cheating the country out of the benefits secured by the war, and so making it the failure that the Convention wished and declared it to be.

The same erring and silly judgments are now formed by prejudiced minds, North and South, about the reconstruction measure. It is work well begun, but not finished. Its completion will indicate its value to the nation, and even to the Southern States. The establishment of civil government on the only basis on which a government can stand, that is, the loyalty of its people, will insure order, the preservation of peace, the security of rights, and everything that political institutions can do towards individual and general prosperity. Objections to the process for effecting these results, raised in the inchoate condition of the process, are worthy of no weight in the consideration of any sensible men. Let it be finished, and if it does not then work well, it will be time enough to supplant it by a better.

The Election Law.

For the benefit of our country readers we publish the provisions of an act passed by the Pennsylvania State Legislature, approved March 30, 1866, entitled "An act regulating the mode of voting at all elections in the several counties of this Commonwealth:"

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same,* That the qualified voters of the several counties of this Commonwealth, at all general, township, borough, and special elections, are hereby hereafter authorized and required to vote by tickets printed or written, or partly printed and partly written, severally as follows: One ticket shall embrace the names of all judges of courts voted for, and to be labelled outside "Judiciary;" one ticket shall embrace the names of all State officers voted for, and be labelled "State;" one ticket shall embrace the names of all county officers voted for, including office of Senator, member and members of Assembly, if voted for, and Members of Congress, if voted for, and be labelled "County;" one ticket shall embrace the names of all township officers voted for, and be labelled "Township;" one ticket shall embrace the names of all borough officers voted for, and be labelled "Borough;" and each class shall be deposited in separate ballot-boxes.

AMONG the regular resolutions adopted by the Republican State Convention in New York is the following. It had been previously adopted by a State Convention of German Republicans:

> *Resolved*, That no person should by law be deprived of the right to public or private recreation or pastime on any day of the week; *provided* that no person in exercising this right shall violate public order and decorum, or the proper respect due to public worship; and that the Excise Law and all other existing laws should be amended accordingly.

THE Cincinnati *Commercial* puts in a claim counter to that of the St. Louis *Democrat* as to the best place for holding the National Republican Convention. It says, "Cincinnati is the central city of the Union," and as for a room, if Pike's Hall is not large enough the Rink is. We advise our friends to press the Rink idea vigorously.

THE second kick which the *World* gives Mr. Johnson, has brought a rebuke from the Brooklyn *Eagle*, also a Democratic organ. It says: "If this opposition to President Johnson originates in the desire of the party managers in this State to put him out of question as a candidate for re-election, it is at once mean and impolitic."

The cotton crop of the present year, the New York *Journal of Commerce*, after a careful review of all the evidence on the subject, estimates at 2,500,000 bales. The New Orleans *Picayune* estimates it at 2,000,000 bales.

FROM NEW YORK.

Dullness of Trade---The Live Stock Market Dull and Prices Declined---The Flour Market---Pittsburgh Merchants, &c.

Special Correspondence of Pittsburgh Commercial.

NEW YORK, September 25, 1867.

A stranger, on entering the city of New York, would at once come to the conclusion that trade was remarkably active, but such is not the case. The business men of the city will at once tell you that trade rules very dull for the season—falling, in every branch, far behind the usual fall transactions. Trade continues here, as elsewhere, from "hand to mouth." On account of the money pressure, many holders of merchandise are anxious to realize without regard to margins. But these inducements to purchase, it matters not at what scale of prices, make no impression on the merchants from the various sections of the country who are now here. There has been (and is yet) a great many buyers here, especially in the dry goods and grocery trades, but after a stay of a day or two, looking round, they leave with very small purchases. The probability is, or at least merchants have made up their minds to believe, that trade will continue in the same dull state as at present—with an occasional excitement of a few hours' duration now and then.

The live stock market here is extremely dull, and prices have declined greatly—and in fact, there seems a panic among holders, who are anxious to realize at any offer made. The receipts of cattle, last week, were 1,600 head above the average weekly receipts for the last year, and the receipts of sheep footed up 38,735 head, or 2,000 head more than ever received before. The receipts of hogs were 31,090 head, exceeding any previous week since January 1st, 1866. On Tuesday there was a large number of cattle on hand and prices run down to low figures. Good steers were sold at 13@14c., while common cattle went at 10@12c. and even 8c., or $25 each for some dry cows. The 1,800 head, in the One Hundredth street yards, were only cleared out at a great loss to the owners. Some of the droves did not bring cost and expenses by $10 per head. One owner of 200 cattle offered $2,000 to any one who would make him whole. The city is overflowed with mutton, and live sheep are selling very cheap—plenty of them at 4c. and lambs at 6c. per pound; but the weather is so fine for keeping mutton on the hooks, that the old rates of 4¼@6¼ cents for sheep, and 6¼@8½ cents for lambs may be reported. But stock is still crowding forward rapidly, and it requires hard work to keep it from accumulating on the dealers hands. As above stated, the receipts of hogs were the largest reported since the first week of 1866. The best are dull at 7¾ cents, which is a decline of more than ½ cent within a week. Common hogs were down as low as 6 cents, and a large number is on the market. On yesterday there were 3,000 head on the market.

The demand for flour has abated very much within the past few days, both for home consumption and speculation, and Western brands are 25@50 cents per barrel lower. The receipts are not large, but considerably in excess of the demand, and stocks in store are increasing.

There are at present a great many Pittsburghers here, buying small lots of goods. Very few are here for pleasure. The St. Nicholas appears to be headquarters for merchants, not only from Pittsburgh, but from all sections of the country. If they do not stop there, you are sure to find them there in the evening, besieged by runners from all the important houses in the city, who first talk of dry goods, groceries and other articles of trade, and then wind up by showing their visitors, if agreeable, a few of the sights.

New and costly buildings are going up all over the city, and if trade still rules dull, money with some people must be still extremely plenty.

ONWARD, RIGHT ONWARD,

Into the valley of death,
Rode the six hundred,

But larger, by hundreds multiplied into millions, than the doomed band who rode to swift destruction in Tennyson's poem, is the great cavalcade of unhappy beings who are riding into misery, worse than death, hugging that fearful disease FEVER AND AGUE, when by the use of

MISHLER'S HERB BITTERS

They might, each one, be forever relieved from it, and their physical organization become thoroughly improved by means of a purified blood and healthy condition of the stomach. The legitimate result of using

Mishler's Celebrated Herb Bitters,

Is to ward off Fever and Ague when it is likely to make its appearance, and to effect a radical cure in cases where it has already gained a foothold. It makes no difference how long the victim of this disease has suffered from it, nor how violent the disease itself may be, we are prepared to furnish indubitable evidence that

Mishler's Celebrated Herb Bitters

Will cure it. It is inevitable from the very nature of the medicine; hence there is no longer any need of suffering. Send to your nearest Druggist for these invaluable Bitters, they all sell them.

THE BISHOP'S
BOOK OF BEAUTY.

Yielding to a widely felt and strongly expressed desire, the Bishop has consented to open an Art Exhibition, which cannot but afford high gratification to his sweetest admirers. With this view the Bishop will be pleased to receive the Carte de Visite of every young lady whose beauty was not born to blush unseen. The Cartes will be placed in the Bishop's Album, and may be inspected from 10 to 4, at his National Gallery, in St. Bride's alley. Every lady's carte must be accompanied by a sealed envelope, containing a short autobiography, and explicit information on certain material points.

Written forms, with questions fully set out, will be sent on enclosing 25 cents. Address

Across the Sierra Nevadas.

THE CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

Great National Trunk Line Across the Continent,

Being constructed with the AID AND SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the most important lines of communication in the world, as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31, are as follows in GOLD:

Gross Earnings	Operating Expenses.	Net Earnings.
$487,579 64	$86,548 47	$401,031 17

Or at the rate of two millions per annum, of which more than three-fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road. The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges. Assuming that they will build and control half the entire distance between San Francisco and the Missouri river, as now seems probable, the United States will have invested in the completion of 865 miles $28,592,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 Acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the General Government, in effect, invites the co-operation of private capitalists, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year Six Per Cent. Coupon Bonds,

Principal and interest payable in Gold Coin, in New York city. They are in sums of $1,000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added, in currency, at which rate they yield nearly

Nine per Cent. upon the Investmen*.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the first lien upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guarantees of the Pacific Railroad Act of Congress, and have in addition several noticeable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions, and others, as an eminently sound, reliable and remunerative form of permanent investment.

Conversions of Government Securities
INTO
CENTRAL PACIFIC FIRST MORTGAGE BONDS
now realize for the holders from
TWELVE TO EIGHTEEN PER CENT. ADVANTAGE,
with the same rate of interest.

The following are the current rates (September 9th), subject, of course, to slight variations from day to day. We receive in exchange:

For cutting with the trowel, bearing hard usage, and making a strong, true wall, there are no better brick known. The cost of making them by this machine is from 95 cents to $1 10 per 1,000, according to the rates of wages. This we guarantee. The machine is built entirely of iron and steel; and in the best style for strength and permanent use in working clay. Apply for circulars, giving full information, at the office,

TTERS.

...a good lumber yard and office, together ... on hand, now doing a splendid business, ...20 and 722 Liberty street.

THE ORATORIO.—The piano used at the Academy of Music on Thursday night was from Messrs. Hammer & Toerge's, Seventh street, and was manufactured by the Central Manufacturing Company of New York.

THE STAKES RECEIVED.—The stakes put up between Hamill and Brown, in the late boat race, amounting to four thousand dollars, have been finally transferred to the winner—Jimmy receiving a draft for the amount yesterday.

CONSOLIDATION MEETING.—A meeting of the friends and opponents of consolidation will be held in Sharpsburg, this afternoon at four o'clock. The citizens of the borough are requested to be present and hear the arguments for and against the measure.

"MUFFIN" GAME TO-DAY.—The "Muffins" of the Enterprise and Petroleum Base Ball Clu... s, will play a match game this afternoon at three o'clock, on the West Common, Allegheny. A ... amusing game is expected.

ADMITTED TO THE BAR.—On Tu... day last, Daniel W. Olegar, Esq., of this city, ... was, on motion, admitted to practice in the seve... ral courts of Jefferson county, Indiana, and on the following, Wednesday, was also admitted to prac... tice in the courts at Cincinnati, Ohio.

HOME AGAIN.—J... oseph G. Seibeneck, Esq., of the adoption and t... e, has returned to the home of his months' tour ... his duties, after a very pleasant four corporeally ... of Europe, looking vastly improved erty stree... Mr. Daniel Wallace, merchant of Liberty street, yesterd... also returned from an European trip ...y.

T... TUSVILLE HERALD.—Oil refiners and shippers are referred to the card of this excellent newspaper in another column. Its columns daily teem with oil intelligence from the various prominent localities in the oil region, and all its news are racily and tersely written. It is a good medium for advertisers, and Pittsburgh merchants and manufacturers would do well to avail themselves of its columns.

THE TEMPERANCE REFORM MOVEMENT.—To-morrow (Sunday) evening, Mr. Thomas T. Everett, an active and prominent member of Pittsburgh Division S. of T., No. 42, will deliver (by request) an address on "Temperance," in the Fifth street Methodist Church, Rev. Alexander Clark, pastor. Mr. Everett is an earnest and successful advocate of the Temperance Reform movement, and is an entertaining and instructive speaker on this subject.

REVIVAL MEETINGS IN FREEPORT.—Our correspondent "Rough Hewer" writes: Elder George Balcom is again in Freeport, after an absence of about four years, and large numbers turn out to hear the preaching and singing and organ playing of revival music by the preacher who takes the whole thing in his hand. Some were immersed in the Allegheny last Sunday, and more are expected next Sunday, and still more Sunday after, when the meetings will close in time to let every Union loving man do his duty at the polls the following Tuesday.

FRIGHTFUL FALL.—A German by the name of Edward Horner, employed at the brewery of Carson, Darlington & Co., on Duquesne Way, accidentally fell from the third floor through the elevator hole to the landing on the first floor, on Thursday afternoon. He fell, fortunately, upon some bags of barley lying there, and besides the injuries received in striking the sides of the second floor in his descent, he was not dangerously hurt. He was severely bruised about the arms and breast, and, it is feared, was also injured internally. He was removed to his residence on Third street, in the Third ward, Allegheny, where he received medical aid.

MERITED PROMOTION.—We are pleased to hear that Lieuts. Thos. L. Atwood and George Ritchie, formerly of Battery F, Independent Pennsylvania Artillery, (well known as Hampton's Battery,) by order of General Grant, have been promoted to the rank of Brevet Lieutenant Colonel of volunteers, for valuable and meritorious services during the war and in the many battles in which the battery was engaged. It is a deserved compliment to the bravery of these gallant young officers and a proper recognition of the services of a battery which we all know, by deeds that have passed into history, to have been one of the most efficient in the late war.

THE FIFTH STREET METHODIST CHURCH.—The Rev. E. A. Brindley, of Ohio, will preach in the Fifth street Methodist Church, (Rev. Alexander Clark, pastor,) above Smithfield street, to-morrow (Sunday) morning at half past ten o'clock. Subject: "The Signs of Prophecy." In the evening at half past seven o'clock, Mr. Thomas T. Everett, of Pittsburgh Division No. 42, Sons of Temperance, will deliver an address on "Temperance." On next Sunday evening, October 6th, the pastor, Rev. Alex. Clark, will resume the new series of Sunday evening sermons on "Gosple Themes in Natures Elements." Subject: "The Light."

AN ALLEGED MURDERER ARRESTED.—The police, on Thursday evening, succeeded in arresting "Snibbs" Arnold, who is suspected of being connected with the murder of Robert Sproul, of Washington county. Immediately after the murder Arnold left this city, and did not return until a few days ago. He kept himself concealed until Thursday, when the opportunity afforded at the Fair for carrying on his business of picking pockets drew him to the ground, and his arrest was effected without difficulty. Officer Dressler took him to Washington yesterday, and placed him in the jail in that borough. It is said that the evidence against him is very strong.

Opera on the 2nd and 3rd—La Grange.

The announcement of the first appearance of the magnificent "La Grange," in this city, after an absence of eight years, has naturally created a feverish desire on the part of our musical *dilettante*, to hear this famous artiste once more. After the sensation she has created in the old world, loaded with honors, and with jewels, the intrinsic worth of which is in the neighborhood of two hundred thousand dollars, the curiosity is natural. Since leaving the United States, she has been the great star of Milan, Madrid, Paris, St. Petersburg, Vienna, and London. Few artists now living have had the long Operatic experience that Madame Anna De La Grange has had, and we sincerely trust that she will meet with that warmth of reception which our public are ever ready to extend to merit, and individual worth. Pittsburgh has the honor of being the chosen city for an opportunity to welcome the lyric Artiste, and on Tuesday and Wednesday evenings the music lovers will have the pleasure of hearing the best combination of artistes that has visited us for some time, viz: Madame La Grange; Signor Brignoli, the silvery voiced tenor; Signors Marra, Susini and Sarti. The sale of secured seats will commence on Monday at 9 A. M., at C. C. Mellor's, No. 81 Wood street.

Ohio River Improvements.

The Ohio river survey parties under the direction of Colonel W. Milnor Roberts, are rapidly completing the preliminary survey. The lower party in charge of Jas. E. Day of Allegheny City, who, commencing at the Suspension Bridge, at Cincinnati, have arrived at Louisville, and found the distance to be one hundred and thirty-two miles, though heretofore called by river men and every way resident as one hundred and fifty miles, Vevay, Indiana, being the half-way distance. The distance to Madison is eighty-six miles, formerly called one hundred miles. The average fall in the river is about four inches per mile. Grassy Flats, Medoc and Rising Sun Bars are the shallowest points met. At the latter named bar the fall in the water is two feet to the mile, with quicks and bottom. These three bars, it is apparent, can be readily permanently improved.

The upper party, in charge of Sigismund Loew, Esq., are yet some sixty-five miles above Cincinnati. The surveys include a thorough examination of the islands, chutes and obstructions, and making requisite soundings, together with noting the topography of the country.

In addition to the above, General Weitzel's party is now engaged, charged with the especial duty of surveying and making a thorough examination of the Falls of the Ohio, with Mr. Eichbaum, of Allegheny City, as his principal assistant.

United States District Court.

[Before Judge McCandless.]

THE REVENUE FRAUDS.

The case of the United States vs. the rectifying establishment of Barber & Henderson, of Montgomery Station, Lycoming county, which was fully reported in the COMMERCIAL a few weeks ago, came up yesterday. A decree was issued a short time since directing their sale. J. H. Bailey, Esq., counsel for the defense, moved yesterday to set aside the decree and all proceedings thereon, and that the case be proceeeded with according to common law; and further moved the Court to set aside the execution issued upon the decree as having been prematurely issued.

A similar motion was also made by the same counsel in reference to the distillery and thirty-six barrels of whisky owned by Jesse B. Rank, of the same place.

The hearing in both cases was fixed for October 10th, at 11 o'clock A. M.

AN IMPORTANT ORDER.

The distillery of Gideon Morrow, situated in Washington township, Armstrong county, was seized on the 16th of September by the Deputy collector of the Twenty-third District, Mr. E. Buffington, in accordance with instructions received from the Treasury Department, for the violation of the Internal Revenue law.

On the 12th of September the distillery, with other property, was advertised for sale by G. W. Cook, Sheriff of Armstrong county, by virtue of sundry writs of *fieri facias* issued out of the Court of Common Pleas of that county.

The District Attorney, Mr. R. B. Carnahan, yesterday requested, as the estate of Morrow on which the property is located had been levied upon by the Sheriff of the county, that an order restricting the sale by the Sheriff be issued. The order, which is the first of the kind ever issued by the United States Court in this District, was as follows:

"And now, September 27, 1867, the affidavit being read in open court and duly considered, and it being made to appear to the court, that G. W. Cook, Sheriff of Armstrong county, has ordered for sale the still house, premises of Gideon Morrow, in Washington township, Washington county, Pa., on the 28th of September, at the suit of Finlay & Co., including the stills, vessels and appurtenances, and a libel having been this day filed in the court for the condemnation of the same for violation of the internal revenue laws, it is now on motion of the United States Attorney ordered that a writ of injunction be issued out of the court restraining the said G. W. Cook, sheriff aforesaid, from selling the appurtenances aforesaid, and from interfering with and from removing from said distillery said stills, vessels and appurtenances, and until said libel are prosecuted to a determination of the case, and also from removing and selling liquors on the premises. *Per curiam.*

Court adjourned to meet at ten o'clock this morning.

Judge McCandless leaves the city to-day for Philadelphia at the request of Judge Grier, for the purpose of hearing two important arguments in the Circuit court of the Western District of Pennsylvania.

BASE BALL.

The Championship Match—Enterprise Victorious.

The final match of the series of three, for the championship of Western Pennsylvania, between the Enterprise and Lincoln Clubs, of this city, took place at the Union Park, Allegheny, yesterday afternoon, and resulted in the success of the former, so that they still hold the title of champion. The playing of both clubs was excellent. Many of the individual members deserve great praise for the admirable manner in which they attended to the duties of their positions. Of the Enterprise nine, Mr. John Earle never appeared to better advantage than he did on the third base. Jack Irwin was more at home than ever on the first, making his admirable fielding a feature of the game. Brockett on his old position, demonstrated conclusively that he would play it as only Brockett can. Joey Euwer, a brother of the distinguished Pinkey, made his first appearance on the first nine, and did the short stop business in a creditable manner. Graham never entered into a contest more sanguine of success, and came out with a good score. Pratt never pitched better, and well sustained his reputation as the "lightning pitcher." Stewart and "Sammy" Jacobs were in their respective positions, the former in the left field and the latter in the centre field. Loughrey, of the Lincoln, managed to make some splendid hits, as did also Lane, who drove Pratt's balls in an air line for left field. McClelland, that popular player, was, as he always is up to his usual mark. Smith has a very happy faculty of getting balls that no one else would be able to stop, and it is to be regretted that he does not have more opportunity for displaying his ability as a player. The second base was played very well by W. McClintock, a gentleman who showed that he is an expert at bat as well as at the oar. Lawrence and Graven did well in their positions. Kurtz on center field was one of the features of the game, making no less than four fly catches. Carpenter, the Captain of the Lincolns, "changed his base" from second to catcher, and attended to his duties well. Mr. Lee, as an umpire, needs no praise. He was, as he invariably is, a model of "correctness and impartiality." The score at the end of the game stood sixty runs for the Enterprise to twenty four for the Lincoln.

Public Amusements.

OPERA HOUSE.—"Uncle Tom's Cabin" will be performed at the matinee this afternoon. In the evening the spectacular play of the "Last Days of Pompeii" and the melo-drama "The Evil Eye" will be performed. Monday evening next the handsome young actress, Miss Ida Vernon will make her first appearance in this city, in the new and successful play "Nobody's Daughter."

THEATRE.—Griffith & Christy's Minstrels will give a matinee performance this afternoon, admission twenty-five cents. In the evening the troupe present a strong bill.

THE panorama of "The Life of Lincoln" will be exhibited this afternoon at two o'clock and in the evening.

Mr. John Routh, conductor of the train, ran forward to the engine, and on investigation found a man hanging to the cowcatcher by his clothes, which had caught on one of the bolts. The man was alive, but both his legs had been cut off. When the train had stopped, Mr. B. F. Valentine ran back with a lantern to stop any following train, when he discovered two men lying over the embankment, about fifty yards back of the train. Upon examination it was found that one of them was quite dead, and the other was breathing his last. The latter survived but a few moments. The injured man and the bodies of the two men were placed upon the train and brought to this city. The former was taken to the Mercy Hospital, in the Eighth ward, and was alive at last accounts, but with little hopes of his recovery. The two dead bodies were taken to Devore's undertaking rooms, on Grant street, and an inquest was held on them by Alderman J. A. Butler, of the Sixth ward. Several witnesses were examined, all of whom testified that the train was going no faster than usual. The jury rendered verdicts of accidental death, exonerating the railroad company and its employees from all blame in the matter. The victims of the accident, it has been ascertained, were Bohemians, and were in the employ of the sons of Judge Mellon, at East Liberty. Their names are unknown. They were three of a party of twelve emigrants who stopped at Braddock's Fields about three weeks since, for want of sufficient means to take them to Cedar Rapids, whither they were bound. They got permission to occupy one of the sheds of the Braddock's Fields Foundry, and these three victims obtained employment, as stated, working industriously every day. They were unable to give their names, and could not speak in English or German. They are supposed to have been a father and his two sons, the latter two being the ones killed.

ACCIDENT ON THE ALLEGHENY VALLEY RAILROAD.

On Wednesday night, about half-past seven o'clock, the body of a man was found lying on the track of the Allegheny Valley Railroad, near Wainwright's Brewery, in Lawrenceville, with his head cut off. A letter was found in the pocket of the deceased, signed Anna Jones, and it was subsequently ascertained that the deceased's name was Thomas Jones, and was employed at Armstrong's Coal Works. Alderman Irwin, of the Ninth ward, held an inquest on the body. The circumstances of his death, other than that he was run over by a train, could not be ascertained, and a verdict of accidental death was rendered. The remains were interred yesterday from Devore's undertaking rooms, on Grant street.

KILLED BY A FALL OF SLATE.

Alderman James Irwin held an inquest yesterday morning on the body of a man named Thomas Kearns, who was killed at Dickson, Stewart & Co.'s Coal Works, near Brinton Station, on the Pennsylvania Railroad. The deceased was employed at the works, and was killed about three o'clock on Thursday afternoon by a piece of slate falling on him. The jury rendered a verdict of accidental death. The deceased was about thirty-five years of age and leaves a wife and three children.

SUICIDE BY DROWNING.

The body of a drowned man was found in Pine creek, near Sharpsburg, yesterday morning. It has been identified as the body of Hugh Hague, keeper of a fruit stand on St. Clair street, and who formerly had a stand at the corner of Fifth and Smithfield streets. The deceased had been considerably troubled of late in regard to money matters, and was slightly deranged in consequence. On Thursday night, about ten o'clock, he closed his stand, went into the dining room in his house and commenced praying and weeping. He suddenly jumped up and ran out of the house. His wife ran after him, but when she had reached the door he had disappeared. Nothing more was seen of him until the body was discovered in the creek yesterday morning, and it is supposed he committed suicide. Alderman Butler held an inquest on the body, and a verdict of found drowned was rendered.

FOR THE OIL REGIONS.—Passengers for the oil regions will observe in our railroad time tables, that an Express train will hereafter leave Pittsburgh at 6 o'clock A. M., and Allegheny ten minutes later, which will connect at Jamestown with the Jamestown and Franklin railroad, and make connections at Franklin for other important points in the Venango petroleum region. This is now the only short line to the oil regions, and the only route having but one change of cars between here and Franklin. It will be to the interest of passengers to remember this.

Dr. Keyser.

...our first page to-day will be found a very ...eresting article from Dr. Keyser on pulmonory diseases, accompanied by testimonials from various parties who have been snatched, as it were, from the grave by his treatment. The Doctor, some time ago, owing to the great demand for his services, relinquished the active management of his fine establishment on Wood street to his son, and has since devoted himself closely to the legitimate duties of his profession, in which he has acquired a reputation of which he has every reason to feel proud. The Doctor is one of the oldest in the profession we have in the city, and we speak from personal knowledge of the fact when we say there is not, among the entire medical fraternity, a closer or more active student. His thirst for knowledge in his profession is such that his mind is ever at work perfecting those theories for the cure of diseases, in the application of which he is so successful, and hence it is that in cases even where the patients have almost given up all hope, he almost always succeeds in affording permanent relief. In diseases of the lungs and ailments arising from an impure state of the blood, he has a very large experience, and such of our readers as are afflicted in this way, would do well to read his communication.—*Pittsburgh Dispatch.*

Dr. Keyser,

Who for the past three years, has had an office for the treatment and cure of chronic diseases at 120 Penn street, has recently been performing some of the most astounding cures ever recorded. We witness that of a Miss Fisher, of Beaver county, who was perfectly blind and sightless, and after a great deal of medical treatment from other sources, was entirely restored to the fullness of perfect vision by the treatment of Dr. Keyser in less than three months. We have published in the *Gazette* several times some extraordinary cures of diseases of the ear, a total loss of hearing, which were cured by him. The case of Mr. Garrett, of Allegheny City, is one worthy of especial notice, as it was a case in which, by the loss of the function of hearing, the young man forgot the power of speech. Both the hearing and speech was restored to him by Dr. Keyser's treatment. It is worthy of remark that in the cures published by Dr. Keyser the residence and number of the house of the person cured is given, so that no one need be deceived who chooses to make the proper inquiry.—*Gazette.*

Cure of Fistula.

DR. KEYSER: I write to thank you for your kindness and scientific management of my disease, for which I called to consult you some time in January last. You will remember that I had a complication of diseases, which finally ended in a terrible fistula, which I had been advised to "let alone," on account of a harrassing cough, which it was feared might fasten on my lungs. I knew that the popular mode of treating diseases like mine was by a cutting operation, which, if successful at all, would naturally throw the disease upon the lungs or some other vital organ; on account of the suddenness of the cure, and the immediate check to a discharge which I was constrained to believe was a salutary provision of Nature to get rid of some morbid condition of the system. I feel perfectly satisfied that your method of treatment, purifying to the system, and local applications to the fistulous part, must cure, if anything could, without cutting, which I find it did, and I am happy to report myself well in every particular, with sounder and better health than I have had for years. I would also add that the applications you made were almost painless, and have left me a new man, with all the energies and vigor of restored health.

Yours, gratefully, I—— C——.

The Governor's Reply.

"Like Sampson of Old," said the minister. "I see, Governor, your success of the evening has sprung from the locks of your hair, and now, for the sake of the unfortunate, whose heads of snowy white, or marble gray, perhaps of flying flax, or drifting dandruff, has long kept them from similar success to your own tonight, tell us the secret of your success." And here we pen the reply of the Governor:

1. I always use one and only one preparation for my hair:
2. This preparation never soils or stains the finest fabric.
3. It contains no poisonous or injurious matter, and is not a die.
4. It is richly perfumed and keeps the hair in its place.
5. If a hair is white or gray, it returns to its proper color.
6. It prevents the hair from becoming loose or falling off.
7. It keeps the scalp clean, healthy and the hair lively.
8. In using it one may always have the finest of beautiful hair.
9. It does all, and more than its proprietors claim for it.

And this preparation is Dr. Tebbett's Physiological Hair Regenerator. Sold by the gross, dozen or single bottle at Dr. Keyser's, 140 Wood street.

Vigorous Vitality.

The best defense against disease is a vigorous vitality. Disease is simply a struggle between the life-power and the invisible enemies that assail it; and the result depends upon the relative strength of the antagonistic principles. In proportion to the vigor and energy of the physique and the constitution is their capacity to resist and fight off the morbid influences which produce sickness. It is a well known fact that active poisons affect in different degrees the weak and the strong. The dose of opium or of arsenic that will suffice to kill a child will scarcely sicken a stalwart man. It is the same with the ærial poisons which produce epidemic and endemic fevers, dysenteries, fluxes and the like. Their effect upon the system depends upon its power of resistance. Augment, therefore, this resistant power, if you would escape these evils. The tonic agent necessary to effect this object has been provided in

HOSTETTER'S STOMACH BITTERS,

a vegetable invigorant of surpassing potency. Fortify the body, increase the vital strength of every organ with this great herbal invigorant. Remember that it strengthens without unduly exciting the animal system.

FINANCE AND TRADE.

FRIDAY EVENING, September 27, 1867.

The money market appeared easier to-day, and there was considerable inquiry for good paper. The banks, as far we could learn, are shortening their lines until after they have completed their next quarterly statements, and after that there is no doubt but they will be in good trim to accommodate all acceptable offerings that may be presented. The outside market today ruled lower, and large amounts were placed at from ten to twelve and commissions.

—In the quotations for Government securities to-day there is hardly any change worthy of notice. The report to the banking houses of Ira B. McVay & Co. and James T. Brady & Co., is as follows:

U. S. 6s 1881	110⅝
U. S. 5-20s, 1862	113¾
U. S. 5-20s, 1864	109
U. S. 5-20s, 1865, May and November	109¼
U. S. 5-20s, 1865, January and July	107⅞
U. S. 5-20s, 1867	107⅝
U. S. 10-40s	99⅝
December Compounds, 1864	118¾
August 7-30s	106⅜
June 7-30s	106⅜
July 7-30s	106⅜
Gold	143⅝

—A New York exchange remarks that in regard to the gold market, those who are long in gold and short of bonds will do well to consider the rapidity with which Europe is absorbing the six per cent. bonds of 1865 in the place of those of 1862. The natural result of this change in the European market for our bonds will be a steady decline in the price of five-twenty bonds of 1862, and an advance in those of 1865, producing a gradual approximation in price, and probable merging in one. While the European telegrams report only the decline in the bonds of 1862, they fail to quote those of 1865 which show an advance. Many parties in Europe are selling the bonds of 1862 and buying in their place those of 1865. Recent advices state that the demand for bonds of 1865 is increasing, and it looks as if Europe will take all that we produce.

—The general stock market is firmer and prices are better maintained. The noon report is as follows:

Michigan Southern	81¾
Cleveland & Pittsburgh Railroad	78⅞
Pittsburgh, Fort Wayne & Chicago Railroad	101⅞
Erie Railroad	61⅞
Chicago & Northwestern Railroad	40⅝

—The New York *World* says:—The old express companies' shares are dull and heavy under the influence of the falling off in their receipts which were published in some of the morning journals. The following is a table of the gross receipts of the several lines in the first seven months of the calendar year last year and this:

	Wells, Fargo.	Adams.	U. S.	American.	M. Union.
1866	$854,194	$2,367,768	$2,194,178	$1,908,675	Not in op'n
1867	801,001	1,990,690	1,312,888	1,227,152	$2,043,551

In this connection the question of railways doing their own express business is discussed by many of the leading railway managers. The Erie Railroad Company undertook some years ago to do this express business on their road, and the co-operation of other companies would have then made it successful. There is no reason why the profits of this express business, which belong legitimately to the railway companies, should not be monopolized by them.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL,
SATURDAY, September 28, 1867.

BUSINESS—The market appeared firm with a fair demand. The stock of crude oil on hand unsold is very small. Holders were firm in their views. The entire sales that came under our notice were 1,600 bbls. The prospect for a rise in the Allegheny is not very flattering. The asking rate for spot oil was 12½@13½c; sales were made at both these figures. A small lot was sold, for first water, at 12c. The dispatches from Oil City indicate a dull market, no sales being reported. Prices were nominal. The crude operations in our market were 200 bbls Smith's Ferry, on the spot, at 12½c; 15 bbls West Virginia lubricating at 25c ₱ gallon. Sales 400 bbls Allegheny oil, bulk, first water, at 12c; sales 1,000 bbls bulk on the spot at 13½c ₱ gallon. It may be proper to remark that certain holders refuse to sell at the present prices.

REFINED OIL—Holders, particularly of October and November oil, were in a very good humor, the figures reaching 35c. The sales were 6,500 bbls, in lots, as follows: 1,000 bbls standard white Philadelphia, September, B O, 32½c; 1,000 bbls do, Philadelphia, October, B O, 35c; 1,000 bbls do, November, 35c. We also note the following 3,500 bbls, as follows: 1,500 bbls S W. Philadelphia, October, B O, 34½c; 1,500 do, November, 34½c; and 500 bbls do, December, 34½c ₱ gallon.

NEW YORK PETROLEUM MARKET.

September 25.—Crude for present delivery is dull, but for October there is a good demand. The sales are 1,200 bbls low gravity, in bulk, at 15@15½c; 1,000 do 46@47 gravity, 14½c; 3,000 do 45@45 gravity, for Oc., 15c S. O.; 1,000 do, 15½c S. O. first half; 3,000 do, 16c S. O. last half; and 2,000 do 46@47 gravity, 15½c S. O. last half. Refined in bond, on the spot and for delivery balance of this month, has ruled very dull; there is no speculative inquiry, and the demand for export is very small; we quote at the close S. W. 33½@33¾c. The sales are 510 bbls L. S. to W. at 29c; 1,500 do S. W., 33@33½c; 10 000 gallons do, in tin, 38½c; 1,000 bbls do Sept., 33½c; 2,500 do for Oct., 35c, B. O.; 3,500 do, 34c, S. O.; and 500 do Nov., 35½c, B. O. Of free, 300 bbls S. W. sold at 50c. In Philadelphia the market has ruled quiet, but closes firm at 32½c for S. W.; sales 1,000 bbls P. L. S. to W. at 31½c; 2,000 do S. W., 32½c; 3,750 do Sept., 32@32½c; 1,500 do Oct., 34@34½c B. O.; 1,000 do. Nov., 34c B. O.; 1,500 do Oct., Nov. and Dec., 34½; and 1,000 do Oct. and Nov., on private terms.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL,
FRIDAY EVENING, September 27, 1867.

BUSINESS—The market since our last was devoid of activity. The principal attraction was the State Fair; the weather being very pleasant the attendance was large. The Fair closed last evening, and was unquestionably one of the most successful that was ever held in this part of the country. The continued low water has been a serious drawback on trade. Produce—The demand and sales were to a moderate extent; so far as relates to prices we have but few changes to notice, buyers were disposed to purchase sparingly, owing to the unsettled state of the market. Flour—The market was steady but not very active; the receipts since our last were the smallest we have noted for some time. Prices, however, have undergone no alteration. The falling off in receipts will increase the confidence of holders, who will, no doubt, make the proper use of the same. Bacon was firm, with plenty of purchasers at current prices. The stock on the market at this time is not large. Bulk meats were firm. We notice receipts of 5,000 pieces. The following are the receipts of a portion of the leading articles received by railroad since our last issue: Flour 168 bbls; Apples 105 bbls; Grain—Corn 753 sacks; Wheat 808 sacks; Barley 336 sacks; Rye 382 sacks; Oats 559 sacks; Cheese 164 boxes; Bulk Meat 5,000 pieces. Below will be found the sales that came under our notice:

BACON—We continue to notice a steady market with a fair trade demand. The sales since our last reached 25,000 lbs, in lots, as follows: Shoulders—10,000 lbs, 14½@15c. Sugar Cured Hams—7000 lbs, canvassed, 23½@24½c ₱ lb. Sides—Sales 8000 lbs; ribbed 17c; clear 18c ₱ lb. Nothing doing in country lots. No sales were reported for several days.

LARD—Was in fair demand. We note sales of lots reaching 18 tierces at 14@14½c ₱ lb.

LARD OIL—Was in fair demand for local purposes; sales 30 bbls No 1 at $1 08@1 10 ₱ gallon, and 25 bbls No 2 at 90c. The stock on the market is not large.

CHEESE—The market contains a fair supply of the various descriptions; the receipts were 164 boxes. The current rates with sales were; Western Reserve 12½@13c; Factory 15c; Hamburg 14c, and Goshen 16c ₱ lb.

HAY—The market was well supplied with wagon lots. We note sales of 22 loads, in lots, at $15@20 ₱ ton.

ASHES—The market was steady, with sales of 5 tons Pearls at 13c ₱ lb; sales of 15 tons Soda Ash, common, 5c.

LIME—We note sales of 25 bbls White Lime at $2 ₱ bbl.

LEAD—Steady; sales of 100 pigs at 10½c.

POTATOES—The market was well supplied: prices were unchanged. Sales 45 bbls Jersey Sweet, in lots, at $4 50, 4 75@5 00 ₱ bbl.

GRAIN—The market was very firm with a good demand for the various kinds. Wheat—wanted; we note sales of 2,000 bush red at $2 28, and 2 car loads at depot at $2 30 ₱ bush. Oats in good favor; sales of 240 bush at depot at 65c and small lots from store at 67@68c ₱ bush. Barley—former prices were well sustained; we note sales of small lots from wagon, of spring, at $1 20@1 25 ₱ bush; sales of store lots at $1 30. Rye was in good request; sales from first hands at $1 25@1 27 ₱ bush. Corn was very firm; buyers were plenty; one dealer received 5 car loads, for which he was offered $1 28, but declined selling below $1 30. This indicates a scarcity of the article.

FLOUR—The market was firm, with a good home demand. The stock of winter wheat flour is very light. Holders were disposed to ask an advance. Yesterday's receipts were but 164 barrels, the smallest we have noted for some time. The nominal rates were for spring wheat, $10 25@10 50; winter do, $11 25@11 75 according to the favor of the brand.

BUTTER—Was steady, with a fair inquiry. Sales 13 packages at 30@34c ₱ lb.

EGGS—Further sales were reported at 20@22c ₱ dozen.

WEEKLY REVIEW OF PIG IRON AND BLOOM MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL,
SATURDAY, September 28, 1867.

The market during the week was firm, with a fair demand for most descriptions of crude irons. The receipts were small in certain branches, being less than usual. The mills are generally in operation, at least a portion of the time. The consumption of certain brands of crude iron is now in excess of the receipts. Stocks of several choice brands have been reduced down to a small amount.

Under the influence of light receipts the general tone of the market was firm. There was an absence of speculative feeling, and purchasers were confined to current consumptive wants.

The continued low rates for nails and merchant bar leaves but a small margin for mill owners to operate on.

The sales of the various qualities were as follows: Anthracite, 400 tons; bituminous coal smelted, 1,130; coke, 55; charcoal, 330. Total 1,915 tons. Blooms, 65 tons against 2,147 tons last week, being a falling off in metal sales of 232 tons.

Oats quiet at 75@76c for Chicago and Ohio. Corn firm and fairly active at $1 30@1 31 for good to prime mixed Western. Pork dull; sales 250 bbls mess at $23 87½ cash, closing nominal at $23 87½c cash, and $21 90 regular. Beef favors buyers, with a moderate inquiry. Cut meats nominal. Bacon quiet and steady. Lard firm at 14@14¼c for fair to prime steam, and 14½@14¾c for kettle rendered.

Cincinnati Market.

CINCINNATI, September 27.—Flour unchanged and in fair demand for extra at $9 75@10 25, and family at $10 75@11 25; no superfine of good grade offered. Wheat quiet and unchanged; No. 1 red $2 34@2 35; No. 2 $2 30. Corn dull and not saleable at the close above $1. Oats dull and prices drooping, closing with no buyers at better than 60c for No. 1. Rye steady at $1 30. Cotton dull and prices lower and nominal; middling can be bought at 18@19c. Whisky irregular and nominal; occasionally a sale is made at 35c in bond, but the great bulk of the business is done in that out of bond, at various prices. Provisions nominally unchanged; holders are not willing to accept the rates offered, therefore nothing was done. Lard is held more firmly and is in demand at 13½c, but the best brands are held higher. Butter firm at 33@35c. Cheese 15@15½c. Flaxseed $2 20. Linseed oil $1 20. Potatoes firm and in demand at $3 25@3 30. Gold 143⅜@143⅝, buying. The weather continues dry. Last night the temperature was down to 48 degrees, but it is now 72. The reports regarding the corn and potato crops are even more discouraging. Farmers are selling off their stock as far as possible. Water is very scarce, and in places cattle have to be driven a long distance to water. Farmers are not feeding hogs to any extent for the winter markets, and no contracts can be made but for early delivery.

St. Louis Market.

ST. LOUIS, September 27.—Tobacco steady and unchanged. Cotton—nothing doing. Hemp very dull at $185 for undressed and $300 for extra dressed. Flour market firm with a moderate business; XX $9@10 50; XXX $10 25@12 00; fancy $12 50@13 00. Wheat—buyers stood off for lower rates; sellers refused to concede, and but little was done; white fall $2 34@2 43; red $2 28@2 43, and choice spring at $1 85. Corn—market very heavy and prices easier at $1 09@1 12½ for mixed and yellow; $1 14@1 15 for white. Oats—market opened dull and lower, at 58@60c, but closed higher at 61@63c. Barley—market firm for choice at $1 30. Rye—market heavy and declined to $1 15@1 21½. Provisions dull, nominally lower and little doing; mess pork $24 75. Bacon—clear sides 18¼c; shoulders 14@14½c; sugar-cured hams 25c. Lard—small sales of choice tierce at 14½c; keg 14½c; round lots of tierce offered at 14c. Whisky—no sales. Weather clear and warm.

New York Dry Goods Market.

NEW YORK, September 27.—Dry goods market without much change. The demand is moderate, with some slight shading in the price of light unbleached sheetings and shirtings, but for other descriptions prices are well sustained. Prints are in light stock and selling freely at 15@16c for best makes. Standard sheetings steady at 17@17½c for best brands, and 16c for seconds and three-yard goods.

Louisville Market.

LOUISVILLE, September 27.—Sales 70 hhds tobacco at $3 75@18 25 for light lugs to medium leaf. Superfine flour $7 75; No. 1 $11 75. Wheat $2 30@2 35. Shelled corn $1 15; ear in bulk $1 10. Oats in bulk 68@70c. Mess pork $24 75. Bacon—shoulders 14½c; clear ribbed sides 18c; clear sides 18¾c, packed. Lard 13½c, in tierces. Whisky in bond 33@35c. Cotton 20@20½c.

Philadelphia Market.

PHILADELPHIA, September 27.—Petroleum firm; refined 32½c. Flour dull. Wheat in improved demand; California white $2 75. Corn firmer; sales of 10,000 bushels mixed Western at $1 40. Oats steady; sales of 3,000 bushels at 78c.

Baltimore Market.

BALTIMORE, September 27.—Flour unchanged. Corn steady. Oats steady. Provisions dull and unchanged.

RIVER TELEGRAMS.

Explosion at St. Louis.

ST. LOUIS, September 27.—About one o'clock today the nigger boiler on the steamer Illinois, lying at the levee, exploded, tearing away a portion of the cabin of the boat, and severely wounding four deck hands. The boiler was blown across the levee.

Louisville.

LOUISVILLE, September 27.—The river is stationary, with twenty-four inches water in the canal. The citizens are contributing liberally towards the sufferers by yellow fever in New Orleans.

Elizabeth	Houghton	Elizabeth.

THE RIVER AND MATTERS ALONG THE WHARF.—Above the Suspension Bridge trade was moderately active. The Brownsville and Elizabeth packets arrive and depart on time, freights to the upper country being plenty. The boats have all the business they can do on the water. A rise of a few feet in that stream would be very beneficial about this time. We suppose we shall have to wait.

CAIRO, September 25.—The following is our port list for the last 24 hours:

Olive Branch, New Orleans to St. Louis; Graham, Paducah; Yankee, Phillips's Bar to Cairo. River stationary. Business dull. Weather cool and clear. The Yankee and barges were all aground. She returns for repairs.

MEMPHIS.—The *Avalanche* is responsible for the following: The new owners of the Mary Swan played a sharp trick on some of the creditors of that boat, we learn. She was turned over to her late purchaser. While parties were getting out an attachment for her, up town, a tug came alongside, took her in tow and carried her to the Arkansas side, where she is out of the jurisdiction of Tennessee.

LOUISVILLE, September 25, P. M.—No change in the river; twenty-six inches in the canal by the mark. The Louisville Board of Trade refuse to adopt the new bill of lading, and ask merchants not to ship under the new style bill. There are twenty-eight inches at Shawneetown, and scant twenty-seven inches at French Island is the latest. Four feet six inches on Phillips' bar. Last night the Norman left Louisville for White river, at eight o'clock. Clear and pleasant.

MOUND CITY.—The *Journal* says: Mr. James Holmes, carpenter employed in repairing the Robert E. Lee, met with an accident on Saturday last, similar to that which happened to George E. Lounsbury, Esq., the day before. He fell into the same hatchway and was badly bruised, though no bones were broken. His most severe injuries were about the head. He has been confined to his bed all the time since the accident, but is slowly recovering. Though not entirely recovered from his injuries, Mr. Lounsbury is now enabled to get around and attend to business.

KENTUCKY RIVER TRADE.—We are very much gratified to learn that F. S. J. Roland and others, who have a charter from the Kentucky Legislature for a packet line on the Kentucky River and tributaries, have determined to build one or more boats for the Kentucky River trade. They are to ply between Louisville and all points along the Kentucky River. Commissioners have been appointed to solicit subscriptions of stock, and books will be opened at the Board of Trade Rooms, and at the four tobacco warehouses. This is the move in the right direction, and we can not doubt that the requisite amount of stock will be promptly taken.

LOW WATER IN THE MISSISSIPPI.—A Cairo dispatch says: The Mississippi, above Cairo, has commenced to give steamers trouble. There is now but five feet between Cairo and St. Louis, and the Belle Memphis was detained twenty hours aground at Hat Island, and the City of Alton six hours at Carthage. The Mary E. Forsyth was also aground some time at Hat Island, and has not yet arrived here, although twenty-four hours overdue. The Mohawk and barges are also in difficulty above Cairo. The river has fallen seven inches since last report, but seems to be almost stationary. It is now nearly three feet below what is considered ordinary low water, but still two feet above low water of 1860. The weather is clear and pleasant, the mercury being at 76 deg. during the day and falling to 65 deg. during the night, making bed clothing very comfortable.

LOUISVILLE.—Wednesday's *Courier* says: The river continues stationary in channel depth at the head of the falls, with twenty-seven or twenty-eight inches water in the canal by the mark. The weather is clear and cool—very cool early in the morning, but last evening the thermometer was about 80 in the shade.

Along the Lower the troubles of the boatmen are not augmenting, though the channel depth of water has not materially improved. The pilots are learning the bars more definitely, and more pains taken to plumb the channel and the precaution not to overload.

There were rather more packets in port than usual for Monday, and the bustle along the city and Portland wharf was active. The Norman was preparing to start to White River from the Portland landing in the evening with a good trip, all she could take on the water.

The Committee of Merchants who had the new bill of lading as adopted by the boatmen, under consideration, reported against its adoption or use on 'Change yesterday. The report of the Committee was adopted, and merchants asked to refuse to ship under the new style bill.

Holders are entitled to the articles named on their certificate, upon payment of Ten Dollars, whether it be a Watch worth $1,000 or one worth less. The return of any of our certificates entitles you to the article named thereon, upon payment, irrespective of its worth; and as no article valued less than $10 is named on any certificate, it will at once be seen that this is *no Lottery, but a straight-forward legitimate Transaction, which may be participated in even by the most fastidious!*

A single Certificate will be sent by mail, post-paid, upon receipt of 25 cents, five for $1, eleven for $2, thirty-three and elegant premium for $5, sixty-six and more valuable premium for $10, one hundred and most superb Watch for $15. To Agents, or those wishing employment, this is a rare opportunity. It is a legitimately conducted business, duly authorized by the Government, and open to the most careful scrutiny. Try us. Address
